Prophets, Profits and the Bible in Zimbabwe Ezra Chitando, Masiwa Ragies Gunda, Joachim Kügler, 2014-04-17

**Justice Not Silence** Ezra Chitando, Sophia Chirongoma, 2013-09-01 The editors of this volume highlight the fact that although the Church often stands up for other public issues such as human rights democratic political rights economic justice etc sexual and gender based violence do not receive the attention they deserve There are no theological or cultural arguments that can justify such a position Sexual and gender based violence are a scourge that defies our Christian understanding of human dignity and challenges the Church in all its formations to respond Although most of the case studies are from Zimbabwe they challenge us regardless of which country we are living in or the tradition of our specific denomination In the context of Southern Africa where the HIV and AIDS burden is among the highest in the world sexual and gender based violence are a major contributor to the spread of the disease This will only change if the Church challenges this practice as part of its educational and public work in theological institutions in congregations but also in its pastoral work within families

Handbook of Christian Prophetism in Africa , 2025-08-14 More than half a century has passed since the first monographs on African Christian prophetism were published The prophetic element was only the most dramatic and prominent part of developments that sought to bring the biblical material alive in ways that had not been experienced in the ecclesiology of Western mission Christianity The ministries of African charismatic figures of the early 20th century were oriented towards the biblical phenomenon of the prophetic and the related issue of divine or faith healing sometimes even to the neglect of the use of bio medical resources The developments have been interrogated in religious studies theology and the sociology and psychology of religion showing how important these churches have been in the African public sphere

Regime, Religion and the Consolidation of Zanu-PFism in Zimbabwe Bekithemba Dube, 2023-12-14 This collection focuses on the role of religious leaders and religious institutions in supporting or resisting the democratization process in Zimbabwe It scrutinizes the actions of religious leaders such as Andrew Wutawunashe and Jeremiah Mutendi who were prominent in the political scene and participated as enablers of the undemocratic regime The contributors to this volume employ a variety of methodological approaches to understand the operational dilemma of the second republic under Emmerson Dambudzo Mnangagwa commonly referred to as Zanupfism It is an empirical study to determine the impact of religious leaders as regime enablers and assess the effects of such an approach in terms of social development democracy and social transformation as espoused in the rise of the second republic In order to balance the narrative the book highlights and offers critique of religious leaders and institutes who are the resisters of the regime It specifically explores the Zimbabwe Catholic Bishops Conference Evangelical Fellowship of Zimbabwe Zimbabwe Council of Churches Talent Chiwenga and Shingi Munyeza This is a critical study of decoloniality in a religious context that documents characters such as Shingi Mayeza Bishop Mutendi Mapostori who seldomly appear in scholarship despite their great impact either positive or negative on the

lives of the people of Zimbabwe      Africans Have Sold Their Souls: Uhumwe the One Big Idea for Africa Ben C Chiganze,2023-07-21 For how long should Africa continue to be associated with hunger poverty desperation corruption and mediocrity For how long will Africa s natural endowments continue to be viewed as a curse instead of a blessing When are our children going to put on new clothes instead of relying on second hand clothes When are we going to stop seeking handouts from other nations as if they owe us a living Have we voluntarily agreed to be a laughing stock for the whole world Have we and our unborn accepted to be labelled third world forever It is time for African leaders to deliver their populace to the Promised Land through diligence and hard work Africa needs to rise above the borders and boundaries which were constructed by the Berlin Conference of 1884 and create a new society which is grounded in its rich cultural soils It is time we start showcasing to the world our rich cultural heritage We need to innovate our products and services along with our cultural dexterity The author proposes a set of solutions to these deep seated and systemic problems These solutions are rooted in the concept of Uhumwe or togetherness which he believes will provide both a strength of belief and a concept which can help African business leaders innovators politicians and others in realising the dream of prosperity for Africa

**The African Conundrum** Mawere, Munyaradzi,Mubaya, Tapuwa R.,2017-05-22 The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency      Inventing the New Dispensation in Zimbabwe Ezra Chitando,Lovemore

Togarasei,Joram Tarusarira,2024-11-14 How does a regime whose members have been actively involved in the previous one appropriate and deploy religious ideas and rhetoric to cast itself as born again and attractive Exploring intersections between politics religion and economics this book examines invention of Zimbabwe s New Dispensation the regime of Emmerson D Mnangagwa and how it has aimed to separate itself from the previous regime of Robert G Mugabe Utilizing the concept of invention contributors reflect on how Mnangagwa and his publicists deploy religious ideas concepts and rhetoric in the quest for legitimacy in a heavily contested political field The book also reflects on the ways opposing political actors have utilized the same template in their quests to secure power The contributors interrogate the use of time theological ideas and

religious practices to separate Mnangagwa's regime from Mugabe's. This book provides insight into how religious rhetoric is used not only to gain but also to contest legitimacy in Zimbabwe's political sphere.

**Innovation and Competition in Zimbabwean Pentecostalism** Ezra Chitando, 2021-01-28 Using the concept of a religious market this volume explores how African Traditional Religions and churches within Prophetic Pentecostalism in Zimbabwe seek to attract and retain members and clients. Chapters provide extensive coverage of two of the leading churches namely Emmanuel Makandiwa's United Family International Church (UFIC) and Walter Magaya's Prophetic Healing and Deliverance Ministries. PHD Contributors also explore the strategies adopted by Pentecostalism in general while others focus on African Traditional Religions. They show that although Prophetic Pentecostalism has gained a significant share of the market in Zimbabwe and in Southern Africa in general it is not without controversy. In particular it has been associated with the abuse of women and exploiting members and clients for financial gain. Innovation and Competition in Zimbabwean Pentecostalism is an important contribution to understanding the marketization of religion.

**Aspects of Pentecostal Christianity in Zimbabwe** Lovemore Togarasei, 2018-07-13 This edited book offers an engaging portrait into a vital religious movement inside this southern Africa country. It tells the story of a community of faith that is often overlooked in the region. The authors include leading scholars of religion, theology and politics from Botswana and Zimbabwe. The insights they present will help readers understand the place of Pentecostal Christianity in this land of many religions. The chapters detail a history of the movement from its inception to the present. Chapters focus on specific Pentecostal churches, general doctrine of the movement and the movement's contribution to the country. The writing is deeply informed and features deep historical, theological and sociological analysis throughout. Readers will also learn about the socio-political and economic relevance of the faith in Zimbabwe as well as the theoretical and methodological implications raised by the Pentecostalisation of society. The volume will serve as a resource book both for teaching and for those doing research on various aspects of the Zimbabwean society past, present and future. It will be a good resource for those in schools and university and college departments of religious studies, theology, history, politics, sociology, social anthropology and related studies. Over and above academic and research readers, the book will also be very useful to government, policy makers, non-governmental organizations and civic societies who have the Church as an important stakeholder.

In addition, some chapters investigate emerging themes in studies on Pentecostalism such as disability. Contributors to this volume situate Zimbabwean Pentecostalism within the larger continuum of global Pentecostalism and reflect on Pentecostal biblical interpretation, the interface between Pentecostalism and African Traditional Religions, the use of titles in Zimbabwean Pentecostalism and Pentecostalism's engagement with HIV/AIDS. The book will appeal to scholars in religious studies and

**Pentecostalism and Cultism in South Africa** Mookgo Solomon Kgatle, 2021-02-28 Pentecostalism is a growing movement in world Christianity. However, the growth of Pentecostalism in South Africa has faced some challenges, including the abuse of religion by some prophets. This book first names these prophets and the churches they lead in South Africa, and then makes use of literary and media analysis to analyse the religious practices by the prophets in relation to cultism. Additionally, the book analyses the celebrity cult and how it helps promote the prophets in South Africa. The purpose of this book is threefold: First, to draw parallels between the abuse of religion and cultism; Second, to illustrate that it is cultic tendencies, including the celebrity cult, that has given rise to many prophets in South Africa; Last, to showcase that the challenge for many of these prophets is that the Pentecostal tradition is actually anti-cultism, and thus there is a need for them to rethink their cultic tendencies in order for them to be truly relevant in a South African context.

**SPIRITUAL WORLD WAR** EMMANUEL N TSHUMAY, 2021-07-30 Emmanuel completed his advanced diploma in Electrical and Electronics engineering in 2017, then later that year he completed a certificate in Bible school named Global Association of Theological Studies. In the year 2020, Emmanuel completed his diploma in Theology from Global Vision Ministerial College and Clergy Council located in Ghana. Emmanuel also completed a certificate in Biblical Counselling. During his young age, Emmanuel had the privilege of attending different kinds of churches; he developed a love of studying religion. He started having a passion for writing books, and he was eager to write a book that talked about the Spiritual warzone. Whilst he had that passion, over the years Emmanuel began doing research; he gathered much information such that he eventually decided to write the Christian book entitled Spiritual World War. The reason why the name weapon appears often in the book is that Emmanuel was comparing military life and spiritual life, and to his amazement, he found out that they share many things in common. Emmanuel is currently a militant who works for the Botswana Defence Force.

**Law, Religion, Health and Healing in Africa** M. Christian Green, Faith Kabata, Fortune Sibanda, 2022-12-31 The Covid 19 pandemic was global in its spread and reach, as well as in its medical, social, and economic effects. In many respects, the

global effort to flatten the curve produced a flattening of experience around the world and a striking coincidence of similar experiences in countries the world over. The identity, simultaneity and uniformity of experience were also manifest in common concerns at the intersection of law and religion in many nations around the world including Africa. The lockdowns and closure of religious worship centres, churches, mosques and religious organisations of all sorts raised questions of freedom of religion and the related concern for freedom of assembly along with concerns about the relation of religion to science and public health, religious channels of communication and religious provision of social services. After all, health, communications and social services are all areas in which African religious organisations play key roles. Potential tensions around these issues raised further considerations about the nature of religion-state relations, the status of religious authority and whether religious and state actors would work together or at odds in addressing the Covid-19 pandemic.

Christianity and Controversies over Homosexuality in Contemporary Africa Ezra Chitando, Adriaan van Klinken, 2016-05-12. Issues of homosexuality are the subject of public and political controversy in many African societies today. Frequently these controversies receive widespread attention both locally and globally, such as with the Anti-Homosexuality Bill in Uganda. In the international media, these cases tend to be presented as revealing a deeply rooted homophobia in Africa, fuelled by religious and cultural traditions. But so far, little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them. Complementing the companion volume *Public Religion and the Politics of Homosexuality in Africa*, this book investigates Christian politics and discourses on homosexuality in sub-Saharan Africa. The contributors present case studies from various African countries, from Nigeria to South Africa and from Cameroon to Uganda, focusing on Pentecostal, Catholic and mainline Protestant churches. They critically examine popular Christian theologies that perpetuate homophobia and discrimination but they also discuss contestations of such discourses and emerging alternative Christian perspectives that contribute to the recognition of sexual diversity, social justice and human rights in contemporary Africa.

**Powered by Faith** Tapiwa Praise Mapuranga, 2018-11-30. This book investigates the impact of Pentecostalism on the participation of women in business in Harare, Zimbabwe. Chapters in this volume trace the history of women's participation in business and highlight how Pentecostalism serves as a major motivating factor. The central argument is that there is a way in which selected women's businesses are powered by the Spirit. Contributors to the volume utilize case studies of selected Pentecostal churches and ministries to highlight how the religious ideologies of these churches galvanize them to engage in business. They also draw patterns of similarity and difference across the different Pentecostal churches. The volume demonstrates how Pentecostalism both facilitates and militates against women's participation in business concerning a specific setting in Zimbabwe.

*Religion and Inequality in Africa* Ezra Chitando, Loreen Maseno, Joram Tarusarira, 2023-01-12. This volume reveals how religion interfaces with inequality in different African contexts. Some contributors undertake detailed analyses of how religion creates and justifies different forms

of inequality that holds back individuals groups and communities across the continent from flourishing while others show how religion can also mitigate inequality in Africa Topics addressed include gender inequality economic inequality disability ageism and religious homophobia Specifically focusing on the United Nation s Sustainable Development Goal 10 to reduce inequality within and among countries this book highlights the extent to which Africa s notoriously religious identity needs to be taken into account in discourses on development COVID-19 and Gender-Based Violence in Zimbabwe Isaiah

Munyiswa,Pauline Mateveke,Ezra Chitando,2024-12-02 This book investigates the experiences of women in Zimbabwe facing COVID 19 and gender based violence arguing that the insights from this extremely tough period could be used as a springboard for positive legal cultural and policy changes In 2020 COVID 19 caught the world by surprise and often the socio cultural factors impacting the treatment and care of those infected by the virus were not fully considered In Zimbabwe the socially constructed role of women as caregivers left them particularly vulnerable Not only this but COVID 19 lockdowns coincided with particularly high levels of sexual exploitation and gender based violence with women again comprising the majority of victims Authors in this book analyse the pandemic experiences of women in Zimbabwe both in the workplace or in the home with the hope of fostering positive cultural change and sensitising policy makers to the need for legislation that protects women in moments of disasters The important lessons and discussion points raised by this book will be important to policymakers both within Zimbabwe and beyond and to researchers working on gender public health philosophy sociology and politics in Africa *The Use and Abuse of the Spirit in Pentecostalism* Mookgo S. Kgatle,Allan H. Anderson,2020-11-29

This book is a pneumatological reflection on the use and abuse of the Spirit in light of the abuse of religion within South African Pentecostalism Both emerging and well established scholars of South African Pentecostalism are brought together to reflect on pneumatology from various approaches which includes among others historical biblical migration commercialisation of religion discernment of spirits and human flourishing From a broader understanding of the function of the Holy Spirit in different streams of Pentecostalism the argument is that this function has changed with the emergence of the new Prophetic churches in South Africa This is a fascinating insight into one of the major emerging worldwide religious movements As such it will be of great interest to academics in Pentecostal Studies Christian Studies Theology and Religious Studies as well as African Studies and the Sociology of Religion **Language, Thought, Art and Existence** R.
