Fortunately, social ecological systems provide a conceptual framework for the interconnected analysis of societies and ecosystems. However, in the case of Latin America, the complexity of social ecological processes undermined a much needed compilation of theoretical concepts, methods, and case studies. It is a useful resource for social actors, government decision makers, and scholars.

Transforming Healthcare in Africa Robert Dibie, 2025-01-14. The current available books and literature that shed light on health policies in many African countries are limited. Transforming Healthcare in Africa: A Comparative Analysis by Professor Robert Dibie examines the key players in the health system game in many African countries. It explores the regulatory regimes that impact the health systems, such as the Ministry of Health. It also provides few case studies of the relationship between the government, the environment, and their citizens. African countries The book also sought to answer six research questions 1 How is healthcare delivery perceived by African countries 2 How are healthcare policies implemented in urban and rural regions or local governments in African countries 3 To what extent are current health services delivered to respond to all citizens needs in African countries 4 What is the current capacity for rural or local governments to effectively engage in health service delivery 5 How can citizens living in rural and urban regions be empowered in the health development delivery system and 6 Which is the best evidence based management system adopted to improve affordable healthcare system in many African countries It also fills the gap in the literature of health systems in Africa
