Sinder, 2021-01-26 Das islamische Recht gilt vielen als Beispiel heilloser Inkoh renz Dem tritt Rike Sinder im Rahmen ihrer Untersuchung der Entwicklung islamischrechtlicher Billigkeit isti s n zwischen dem 2 8 und dem 8 14 Jahrhundert entgegen Der isti s n fungiert in dieser Zeit n mlich als Motor der Systematisierung islamischen Rechtsdenkens Zugleich manifestiert sich in ihm ein teleologisches Naturrechtsdenken in aristotelischer Tradition back cover **Islamic Natural Law Theories**

Anver M. Emon, 2010-04-08 This book offers the first sustained jurisprudential inquiry into Islamic natural law theory It introduces readers to competing theories of Islamic natural law theory based on close readings of Islamic legal sources from as early as the 9th and 10th centuries CE In popular debates about Islamic law modern Muslims perpetuate an image of Islamic law as legislated by God to whom the devout are bound to obey Reason alone cannot obligate obedience at most it can confirm or corroborate what is established by source texts endowed with divine authority This book shows however that premodern Sunni Muslim jurists were not so resolute Instead they asked whether and how reason alone can be the basis for asserting the good and the bad thereby justifying obligations and prohibitions under Shari a They theorized about the authority of reason amidst competing theologies of God For premodern Sunni Muslim jurists nature became the link between the divine will and human reason Nature is the product of God s purposeful creation for the benefit of humanity Since nature is created by God and thereby reflects His goodness nature is fused with both fact and value Consequently as a divinely created good nature can be investigated to reach both empirical and normative conclusions about the good and bad They disagreed however whether nature s goodness is contingent upon a theology of God s justice or God s potentially contingent grace upon humanity thus contributing to different theories of natural law By recasting the Islamic legal tradition in terms of legal philosophy the book sheds substantial light on an uncharted tradition of natural law theory and offers critical insights into contemporary global debates about Islamic law and reform *A Muslim Reformist in Communist Yugoslavia* Sejad Mekić, 2016-07-01 A Muslim Reformist in Communist Yugoslavia examines the Islamic modernist thought of Husein ozo a prominent Balkan scholar Born at a time when the external challenges to the Muslim world were many and its internal problems both complex and overwhelming ozo made it his goal to reinterpret the teachings of the Qur an and had th prophetic tradition to a generation for whom the truths and realities of Islam had fallen into disuse As a Muslim scholar who lived and worked in a European communist multi cultural and multi religious society Husein ozo and his work present us with a particularly exciting account through which to examine the innovative interpretations of Islam For example through a critical analysis of ozo s most significant fatw s and other relevant materials this book examines the extent of the inherent flexibility of the Islamic law and its ability to respond to Muslim interests in different socio political conditions Since ozo s writings in general and his fatw s in particular have continued to be published in the Balkan lands up to the present this monograph should help shed some light on certain assumptions underlying modern Islamic thought and consciousness found in the region **Islamic Studies** , 2007 **Shari'a & Constitutional Reform in Indonesia** Nadirsyah Hosen, 2007 This

book focuses on constitutional reform in Indonesia 1999 2002 from the perspective of shari a The study reveals one possible picture of how Islam and constitutionalism can co exist in the same vision not without risk of tension but with the possibility of success

War and Law in the Islamic World Matthias Vanhullebusch,2015-06-05 A three part investigation on the origins and evolving roles that Islamic law and international humanitarian law have played in regulating conflict and violence War and Law in the Islamic World brings to light legal and policy complexities that plague modern day armed conflict in the region

Shari'ah and Common Law Adnan Trakic,2022-10-24 Harmonisation of law a term that refers to the bringing together of two different legal traditions has developed a negative connotation when considered in the context of Shari ah and common law Harmonisation began to be looked at as an attempt by one legal system to impose its values on the other A major reason for that is the lack of understanding of the scope to which these two legal traditions converge One of the principal findings of this book is that Shari ah and common law have many more commonalities than differences As a result the need for harmonisation between the two might have been exaggerated The similarities do not need to be harmonised Rather they need to be acknowledged and appreciated If the differences between Shari ah and common law which undoubtedly exist as evidenced in this book are viewed with an appreciation of the commonalities the ambition to reconcile the differences would be more conducive to the harmonisation process This book is intended to help readers better understand Shari ah and common law and aid harmonisation efforts when the need arises

The Oxford Handbook of Islamic Law Anver M. Emon,Rumee Ahmed,2018-10-25 This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies Written by outstanding senior and emerging scholars in their fields it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come

Toward Our Reformation Mohammad Omar Farooq,2011-01-01 It is the author's contention that at the heart of the Muslim predicament lies ignorance and or lack of commitment to core Islamic values thus what is advocated throughout this work is a return to what is termed a value oriented approach We further learn that with the passage of time what we today consider to be the Shariah is in effect an original hub enveloped in a labyrinthine shroud of scholastic views and deductions hindering Muslim development and to rely on fraudulent hadith and fallacious

implementation of hudud law is not only to betray the spirit of the Qur'an and the Prophet's message but a disastrous exercise. Consequences being blatant abuse of the Muslim populace under cover of implementing a bogus Shariah. This abuse and misapplication is explored throughout the work.
