**Writing** David Carrier, 1991 Principles of Art History Writing traces the changes in the way in which writers about art represent the same works These differ in such deep ways as to raise the question of whether those at the beginning of the process even saw the same things as those at the end did Carrier uses four case studies to identify and explain changing styles of restoration and the history of interpretation of selected works by Piero Caravaggio and van Eyck Back cover

Principles of Art History Heinrich Wölfflin, 2015-05-07 Principles of Art History by Heinrich Wölfflin 1864 1945 a revolutionary attempt to construct a science of art through the study of the development of style has been a foundational work of formalist art history since it was first published in 1915 At once systematic and subjective and remarkable for its compelling descriptions of works of art Wölfflin's text has endured as an accessible yet rigorous approach to the study of style Although Wölfflin applied his analysis to objects of early modern European art Principles of Art History has been a fixture in the theoretical and methodological debates of the discipline of art history and has found a global audience With translations in twenty four languages and many reprints Wölfflin's work may be the most widely read and translated book of art history ever This new English translation appearing one hundred years after the original publication returns readers to Wölfflin's 1915 text and images It also includes the first English translations of the prefaces and afterword that Wölfflin himself added to later editions Introductory essays provide a historical and critical framework referencing debates engendered by Principles of art history, by heinrich wölfflin in the twentieth century for a renewed reading of the text in the twenty first

Eugene Kleinbauer, Medieval Academy of America, 1989-01-01 A collection of essays that reflect the breadth of twentieth century scholarship in art history Kleinbauer has sought to illustrate the variety of methods scholars have developed for conveying the unfolding of the arts in the Western world Originally published by Holt Rinehart and Winston 1971 The Global Reception of Heinrich Wölfflin's Principles of Art History Evonne Levy, Tristan Weddigen, 2020 Perspectives on a book that changed ways of thinking and writing about art around the world

**The Art of Art History** Donald Preziosi, 2009-02-26 What is art history Why how and where did it originate and how have its methods changed over time The history of art has been written and rewritten since classical antiquity Since the foundation of the modern discipline of art history in Germany in the late eighteenth century debates about art and its histories have intensified Historians philosophers psychologists and anthropologists among others have changed our notions of what art history has been is and might be This anthology is a guide to understanding art history through critical reading of the field's most innovative and influential texts focusing on the past two centuries Each section focuses on a key issue art as history aesthetics form content and style anthropology meaning and interpretation authorship and identity

and the phenomenon of globalization More than thirty readings from writers as diverse as Winckelmann Kant Mary Kelly and Michel Foucault are brought together with editorial introductions to each topic providing background information bibliographies and critical elucidations of the issues at stake This updated and expanded edition contains sixteen newly included extracts from key thinkers in the history of art from Giorgio Vasari to Walter Benjamin and Satya Mohanty a new section on globalization and also a new concluding essay from Donald Preziosi on the tasks of the art historian today

Principles of Art History Heinrich Wölfflin, 1970

**Panofsky and the Foundations of Art History** Michael Ann Holly, 1984 No one has been more influential in the contemporary practice of art history than Erwin Panofsky yet many of his early seminal papers remain virtually unknown to art historians As a result Michael Ann Holly maintains art historians today do not have access to the full range of methodological considerations and possibilities that Panofsky's thought offers and they often remain unaware of the significant role art history played in the development of modern humanistic thought Placing Panofsky's theoretical work first in the context of the major historical paradigms generated by Hegel Burckhardt and Dilthey Holly shows how these paradigms themselves became the grounds for creative controversy among Panofsky's predecessors Riegl Wölfflin Warburg and Dvork among others She also discusses how Panofsky's struggle with the terms and concepts of neo-Kantianism produced in his work remarkable parallels with the philosophy of Ernst Cassirer Finally she evaluates Panofsky's better known and later iconological studies by reading them against the earlier essays and by comparing his earlier ideas with the vision that has inspired recent work in the philosophy of history semiotics and the philosophy of science

**A History of Art History** Christopher S. Wood, 2021-03-02 In this authoritative book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original and accessible account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich Wölfflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history from book jacket

**Principles of Art History : the Problem of the Development of Style in Later Art** Heinrich Wölfflin, 1940

**Principles of art history** Heinrich Wölfflin, 1940      **An Analytic Index of Principles of Art History by Heinrich Wölfflin** Julia Lake Graham, 1966      Principles of Art History, 1929      **German Art History and Scientific Thought** Mitchell B. Frank, 2017-07-05 A fresh contribution to the ongoing debate between Kunstwissenschaft scientific study of art and Kunstgeschichte art history this essay collection explores how German speaking art historians of the late nineteenth and early twentieth century self consciously generated a field of study Prominent North American and European scholars provide new insights into how a mixing of diverse methodologies took place in order to gain a more subtle and comprehensive understanding of how art history became institutionalized and legitimized in Germany One common assumption about early art historical writing in Germany is that it depended upon a simplistic and narrowly defined formalism This book helps to correct this stereotype by demonstrating the complexity of discussion surrounding formalist concerns and by examining how German speaking art historians borrowed incorporated stole and made analogies with concepts from the sciences in formulating their methods In focusing on the work of some of the well known fathers of the discipline such as Alois Riegl and Heinrich Wölfflin as well as on lesser known figures the essays in this volume provide illuminating and sometimes surprising treatments of art history's prior and understudied interactions with a wide range of scientific orientations from psychology sociology and physiognomics to evolutionism and comparative anatomy      **»Global Art History«** Monika Leisch-Kiesl, 2017-12-15 Der kontrovers diskutierte Begriff einer globalen Kunstgeschichte Global Art History wird in diesem Band zum bergreifenden Thema gemacht Die Beiträge international renommierter KunsthistorikerInnen fokussieren jeweils spezifische Regionen und künstlerische Praxen die in globalen und transkulturellen Zusammenhängen differenziert betrachtet werden Es geht um Standortbestimmungen theoretische Fundierungen und methodische Klärungen und nicht zuletzt darum wie Kunstgeschichten außerhalb euro-amerikanischer Kontexte gedacht und geschrieben werden      Comparativism in Art History Jas Elsner, 2017-07-05 Featuring some of the major voices in the world of art history this volume explores the methodological aspects of comparison in the historiography of the discipline The chapters assess the strengths and weaknesses of comparative practice in the history of art and consider the larger issue of the place of comparative in how art history may develop in the future The contributors represent a comprehensive range of period and geographic command from antiquity to modernity from China and Islam to Europe from various forms of art history to archaeology anthropology and material culture studies Art history is less a single discipline than a series of divergent scholarly fields in very different historical geographic and cultural contexts but all with a visual emphasis on the close examination of objects These fields focus on different often incompatible temporal and cultural contexts yet nonetheless

they regard themselves as one coherent discipline namely the history of art There are substantive problems in how the sub fields within the broad brush generalization called art history can speak coherently to each other These are more urgent since the shift from an art history centered on the western tradition to one that is consciously global

**The Expressionist Turn in Art History** KimberlyA. Smith,2017-07-05 During the period in which Expressionist artists were active in central Europe art historians were producing texts which also began to be characterized evocatively as expressionist yet the notion of an expressionist art history has yet to be fully explored in historiographic studies of the discipline This anthology offers a cross section of noteworthy art history texts that have been described as expressionist along with critical commentaries by an international group of scholars Written between 1912 and 1933 the primary sources have been selected from the published scholarship of both recognized and less familiar figures in the field s Germanic tradition Wilhelm Worringer Fritz Burger Ernst Heidrich Max Dvor Heinrich W lfflin and Carl Einstein Translated here for the first time these examples of an expressionist turn in art history along with their secondary analyses and the book s introduction offer a productive lens through which to re examine the practice and theory of art history in the early twentieth century

Methods & Theories of Art History Third Edition Anne D'Alleva,Michael Cothren,2021-08-05 This book is an accessible introduction to the critical theories used in analysing art It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives This edition has been updated to reflect recent scholarship in contemporary art and has been broken down into smaller sections for greater accessibility The book begins with a revised discussion of the difference between method and theory The following chapters apply the varying approaches to works of art some of them new to this edition The book ends with a new conclusion that focuses on the way the study of art is informed by theory
