last decades has brought to the fore the main mythographical manual that has come down to us from Antiquity Apollodorus Bibliotheca A number of recent editions shows this trend like the commented translations of Carri re Massonie 1991 and Scarpi Ciani 1996 the translations of Guidorizzi 1995 Brodersen 2004 Dr ger 2005 and Smith Trzaskoma 2007 or the critical text by Papathomopoulos 2010 The publication of the first two volumes 2010 and 2012 of Cuartero s massive critical and commented bilingual edition for the Fundaci Bernat Metge series seemed the occasion to address this text from innovative scholarly perspectives The origins of the present volume lay in a colloquium held at the Universitat Aut noma de Barcelona in 2013 Despite its crucial interest for the scientific study of ancient myth no conference devoted to this engaging text was held prior to that one And to this date no monographic volume on Apollodorus mythology exists either To cover a broader scope of analysis three further papers have been commissioned to other specialists This collection of essays is meant to be a homage to Francesc J Cuartero

*Founding Gods, Inventing Nations* William F. McCants, 2012 From the dawn of writing in Sumer to the sunset of the Islamic empire *Founding Gods Inventing Nations* traces four thousand years of speculation on the origins of civilization Investigating a vast range of primary sources some of which are translated here for the first time and focusing on the dynamic influence of the Greek Roman and Arab conquests of the Near East William McCants looks at the ways the conquerors and those they conquered reshaped their

myths of civilization's origins in response to the social and political consequences of empire. The Greek and Roman conquests brought with them a learned culture that competed with that of native elites. The conquering Arabs in contrast had no learned culture which led to three hundred years of Muslim competition over the cultural orientation of Islam, a contest reflected in the culture myths of that time. What we know today as Islamic culture is the product of this contest whose protagonists drew heavily on the lore of non-Arab and pagan antiquity. McCants argues that authors in all three periods did not write about civilization's origins solely out of pure antiquarian interest; they also sought to address the social and political tensions of the day. The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire.

*Roman Charity* Jutta Gisela Sperling, 2016-10-15 *Roman Charity* investigates the iconography of the breastfeeding daughter from the perspective of queer sexuality and erotic maternity. The volume explores the popularity of a topic that appealed to early modern observers for its eroticizing shock value, its ironic take on the concept of Catholic charity, and its implied critique of patriarchal power structures. It analyses why early modern viewers found an incestuous adult breastfeeding scene good to think with and aims at expanding and queering our notions of early modern sexuality. Jutta Gisela Sperling discusses the different visual contexts in which *Roman Charity* flourished and reconstructs contemporary horizons of expectation by reference to literary sources, medical practice, and legal culture. The Author in Middle Byzantine Literature Aglae Pizzone, 2014-10-24 Author and authorship have become increasingly important concepts in Byzantine literary studies. This volume provides the first comprehensive survey on strategies of authorship in Middle Byzantine literature and investigates the interaction between self-presentation and cultural production in a wide array of genres, providing new insights into how Byzantine intellectuals conceived of their own work and pursuits. **Receptions of Antiquity, Constructions of Gender in European Art, 1300-1600**, 2015-06-24 *Receptions of Antiquity: Constructions of Gender in European Art, 1300-1600* presents scholarship in classical reception at its nexus with art history and gender studies. It considers the ways that artists, patrons, collectors, and viewers in late medieval and early modern Europe used ancient Greek and Roman art, texts, myths, and history to interact with and shape notions of gender. The essays examine Giotto's Arena Chapel frescoes, Michelangelo's Medici Chapel personifications, Giulio Romano's decoration of the Palazzo del Te, and other famous and lesser-known sculptures, paintings, engravings, book illustrations, and domestic objects, as well as displays of ancient art. Visual responses to antiquity in this era, the volume demonstrates, bore a complex and significant relationship to the construction of and challenges to contemporary gender norms. **Orpheus in Macedonia** Tomasz Mojsik, 2022-11-17 The mythological hero Orpheus occupied a central role in ancient Greek culture, but the son of Oeagrus and Thracian musician venerated by the Greeks has also become a prominent figure in a long tradition of classical reception of Greek myth. This book challenges our entrenched idea of Orpheus and demonstrates that in the Classical and Hellenistic periods

depictions of his identity and image were not as unequivocal as we tend to believe today Concentrating on Orpheus ethnicity and geographical references in ancient sources Tomasz Mojsik traces the development of and changes in the mythological image of the hero in Antiquity and sheds new light on contemporary constructions of cultural identity by locating the various versions of the mythical story within their socio political contexts Examination of the early literary sources prompts a reconsideration of the tradition which locates the tomb of the hero in Macedonian Pieria and the volume argues for the emergence of this tradition as a reaction to the allegation of the barbarity and civilizational backwardness of the Macedonians throughout the wider Greek world These assertions have important implications for Archelaus Hellenizing policy and his commonly acknowledged sponsorship of the arts which included his incorporating of the Muses into the cult of Zeus at the Olympia in Dium

**Form of Politics** John von Heyking, 2016-06-01 For statesmen friendship is the lingua franca of politics Considering the connections between personal and political friendship John von Heyking's *The Form of Politics* interprets the texts of Plato and Aristotle and emphasizes the role that friendship has in enduring philosophical and contemporary political contexts Beginning with a discussion on virtue friendship described by Aristotle and Plato as an agreement on what qualifies as the pursuit of good *The Form of Politics* demonstrates that virtue and political friendship form a paradoxical relationship in which political friendships need to be nourished by virtue friendships that transcend the moral and intellectual horizons of the political society Von Heyking then examines Aristotle's ethical and political writings which are set within the boundaries of political life and Plato's dialogues on friendship in *Lysis* and the *Laws* which characterize political friendship as festivity Ultimately arguing that friendship is the high point of a virtuous political life von Heyking presents a fresh interpretation of Aristotle and Plato's political thought and a new take on the most essential goals in politics Inviting reassessment of the relationship between friendship and politics by returning to the origins of Western philosophy *The Form of Politics* is a lucid work on the foundations of political cooperation

**The Care Economy** Tim Jackson, 2025-02-27 Care is the foundation of organic life But its fate in the economy is precarious and uncertain The labour of care is arduous and underpaid Yet without it health and vitality are impossible Care itself ends up leading a curious dual life In our hearts it's honoured as an irreducible good But in the market it's treated as a second class citizen barely recognised in the relentless rush for productivity and wealth How did we arrive in this dysfunctional place And what can we do to change things What would it mean to take health seriously as a societal goal What would it take to adopt care as an organising principle in the economy Renowned ecological economist Tim Jackson sets out to tackle these questions in this timely and deeply personal book His journey travels through the history of medicine the economics of capitalism and the philosophical underpinnings of health He unpacks the gender politics of care revisits the birthplace of a universal dream and confronts the demons that prevent us from realising it Irreverent insightful and profoundly inquisitive *The Care Economy* offers a bold and accessible manifesto for a healthier and more humane society

*Visualizing the Afterlife in the Tombs of*

*Graeco-Roman Egypt* Marjorie Susan Venit, 2016 This book explores the visual narratives of a group of decorated tombs from Ptolemaic and Roman Egypt c 300 BCE 250 CE The author contextualizes the tombs within their social political and religious context and considers how the multicultural population of Graeco Roman Egypt chose to negotiate death and the afterlife

*Richard Barnfield's Poetics* Fabio Ciambella, Cristiano Ragni, Camilla Caporicci, 2025-06-12 Richard Barnfield is sometimes considered the rival poet in Shakespeare's sonnets but has been relatively neglected in studies of early modern English poetry This edited collection situates Barnfield's position in early modern literature beyond his best known work *The Affectionate Shepherd* exploring his classical education wider homoerotic verse and distinctive aesthetic literary style Making use of different approaches the essays in this volume tackle issues of intertextuality and interdiscursivity through the poet's use of classical sources and poetic genres such as the sonnet and epyllia Particular attention is devoted to the relationship between Barnfield's work and that of his contemporaries Traditionally limited to a comparison with Shakespeare's output this volume places Barnfield in the literary panorama of his time giving specific attention to those features which make his work stand out Using corpus linguistics tools the poet's entire body of work is further elucidated through the structure and meter of his sonnets as well as formal and functional aspects of his use of irony Written by an international group of scholars this collection celebrates the 450th anniversary of Barnfield's birth and makes his poetry essential to the study of early modern literature

*Salvation As a Mechanical Process* Richard E. Davies, 2020-02-14 Christians have been taught that Jesus died on the cross to pay a fine or ransom to expiate or atone for our sins Furthermore they have been taught that the death of Jesus is the only way individuals can receive eternal salvation In general this notion is called the doctrine of blood atonement or penal substitution or some similar name One reason for this teaching is that the development of Newtonian mechanics has led us to believe that God's laws of salvation must be as easy to understand as the seventeenth and eighteenth century laws of our physical world This book demonstrates that there are alternatives for understanding Jesus execution that are consistent with the twentieth and twenty first century understanding of our physical world In fact the early Christian writers including the Bible itself described these alternatives Sacrifice was only one form of the early Christian narrative explaining the death of Jesus Although blood atonement was understandable in ancient Roman culture it is not understandable in our culture The inevitable conclusion is that we should abandon blood atonement and develop one of the alternative ways of understanding the cosmic significance of Jesus execution
