Teacher Involvement in High-Stakes Language Testing Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students *Second Language Speech Fluency*

instruction and assessment in how children learn Common issues shared in child L2 acquisition studies language testing and educational assessment are explored by linking research carried out within the educational academic and testing communities Several case studies are described from different educational contexts around the world where teaching and assessment of young language learners takes place In particular the book presents the Cambridge English approach to assessing young learners of English and presents a framework for the development research and validation activities around the Cambridge English suite battery for children

Teacher Training for English-Medium Instruction in Higher Education
Sánchez-Pérez, Maria del Mar, 2020-02-07 English medium instruction EMI has become a pervasive teaching model in recent higher education The implementation of EMI programs requires changes in university teaching methods since most lecturers need to adapt their contents and the way they teach them to successfully work in foreign language environments The rapid proliferation of such programs has resulted in concern among teaching staff who have felt pushed towards teaching their subject content through a non native language with little or no previous training As a result many recent studies have highlighted the importance and urgency to train teaching staff in terms of language proficiency and the appropriate teaching methods techniques and strategies to be applied in EMI lessons *Teacher Training for English Medium Instruction in Higher Education* is an academic research publication that provides comprehensive research on effective approaches and experiences in teacher training for EMI at universities both in terms of language skills and teaching methodologies and that analyzes the design and development of comprehensive teacher training programs that successfully engage these EMI programs It has profound implications for the development of the international profile of higher education institutions as it provides information on how to train highly qualified lecturers to successfully teach students from different nationalities Featuring a wide range of topics such as assessment curriculum design and learning styles this book is ideal for pre and in service teachers language specialists content specialists administrators deans higher education faculty researchers practitioners curriculum designers policymakers academicians and students

Early Language Learning in Context

David Hayes, 2022-08-19 This book critically analyses early school foreign language teaching policy and practice foregrounding the influence of the socioeducational and cultural context on how policies are implemented and assessing the factors which either promote or constrain their effectiveness It focuses on four Asian contexts Malaysia South Korea Sri Lanka and Thailand while providing a discussion of policy and practice in Canada and Finland as a comparison Concentrating on the state school sector it criticises the worldwide trend for a focus on English as the principal or only foreign language taught in primary schools founded on a rationale that widespread proficiency in English is important for future national success in a globalised economy It maintains that the economic rationale is not only largely unfounded and irrelevant to the language learning experiences of young children but also that the focus on English exacerbates system inequalities rather than contributing to their reduction The book argues for a broader perspective on language learning in primary schools one

that values multilingualism and knowledge of regional and indigenous languages alongside a more diverse range of foreign languages This book will appeal to educational policymakers researchers and students interested in early foreign language learning in state educational systems worldwide *APTIS Oriented Practice Material 2* Patricia Alegría, Jana Enríquez, 2019-04-03 Practice material for the APTIS Reading Vocabulary Grammar Speaking and Writing with answer KEYS with EXPLANATIONS Speaking and Writing SAMPLE ANSWERS and additional exercises Note Vocabulary Grammar Speaking and Writing in this book are based on the Reading test content for a more comprehensive practice experience NOW WITH MORE TIPS AND MORE ADDITIONAL EXERCISES Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning Zou, Bin, Thomas, Michael, 2019-12-06 The pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning Innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes Recent Developments in Technology Enhanced and Computer Assisted Language Learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning Featuring an array of topics such as artificial intelligence teacher preparation and distance learning this book is ideal for teachers language instructors IT specialists instructional designers curriculum developers researchers education professionals academicians administrators practitioners and students

TESOL Teacher Education in a Transnational World Osman Barnawi,Anwar Ahmed,2020-11-26 TESOL Teacher Education

in a Transnational World critically examines theories and practices in contemporary TESOL teacher education to shed new light on the intersection of transnationalism and language teacher education. It emphasizes the scholarship of transnational mobility of language teachers and showcases critical research from diverse contexts. The book fills a critical research gap by more fully examining the theory and practice of teacher education in a changing time when national identities and cross border mobilities continue to figure prominently in scholarly discussions. Through a diverse set of epistemological, historical and theoretical perspectives along with methodological innovations, contributors of this volume not only index the dynamism of the scholarship of teacher education but they also offer new forums for lively pedagogical debates. Featuring contributions from diverse educational and geographical contexts including Europe, Asia, North America and Latin America, the book moves the existing scholarship forward to more fully examine TESOL teacher education in relation to transnationalism. This book will be of great interest to academics, scholars, post graduate students, teacher educators, policymakers, curriculum specialists, administrators and other stakeholders interested in language teacher education, TESOL and applied linguistics.
