Thomas Hartung,2007-03-14 Die rechtlichen Rahmenbedingungen f r Versicherungsunternehmen unterliegen in der Europ ischen Union einem nachhaltigen Ver nderungsprozess Wurde im Kreditwesensektor schon seit l ngerem kontrovers ber die ideale Konzeption der Mindestanforderungen an das haftende Eigenkapital diskutiert so r ckt durch das Projekt Solvency II nun auch in der Assekuranz die Regulierung des Eigenkapitals st rker in das unternehmerische Blickfeld Dr Thomas Hartung

untersucht in seiner Habilitationsschrift die derzeitige Leistungsfähigkeit der Risikomodellierung für die Eigenkapitalregulierung von Versicherungsunternehmen. Er reflektiert hierzu nicht nur den aktuellen Forschungsstand zur solvabilitätsorientierten Risikoquantifizierung sondern auch die Möglichkeiten zur Quantifizierung der Abhängigkeitsstrukturen zwischen den Risiken. Vor diesem Hintergrund gelingt es ihm die bislang in der Aufsichtspraxis vorzufindenden Solvabilitätskonzeptionen kritisch zu vergleichen und hinsichtlich ihrer Eignung zur Verwirklichung der Ziele der Eigenkapitalregulierung ökonomisch zu bewerten.

*Banking and Financial Institutions* Benton E. Gup, 2011-06-01 A practical guide to the evolving world of banking and financial institutions. Due to various factors ranging from the global financial crisis that began in 2007 to new laws such as the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 banks and financial institutions have had to alter the way they operate. Understanding how these institutions function in the face of recent challenges is essential for anyone associated with them. That's why Professor Benton Gup has created *Banking and Financial Institutions*. Opening with a detailed discussion of the causes of the recent financial crisis as well as a look at some lessons we can learn from it and other crises this reliable resource quickly moves on to put modern banking in perspective. **Global Financial Stability Report, October 2016** International Monetary Fund. Monetary and Capital Markets Department, 2016-10-05 The current report finds that short term risks to global financial stability have abated since April 2016 but that medium term risks continue to build Financial institutions in advanced economies face a number of cyclical and structural challenges and need to adapt to low growth and low interest rates as well as to an evolving market and regulatory environment Weak profitability could erode banks buffers over time and undermine their ability to support growth A cyclical recovery will not resolve the problem of low profitability More deep rooted reforms and systemic management are needed especially for European banks The solvency of many life insurance companies and pension funds is threatened by a prolonged period of low interest rates Corporate leverage in emerging market economies remains elevated in some countries but the current favorable external environment presents an opportunity for overly indebted firms to restructure their balance sheets The political climate is unsettled in many countries A lack of income growth and a rise in inequality have opened the door for populist inward looking policies These factors make it even harder to tackle legacy problems and further expose economies and markets to shocks A potent and more balanced policy mix is needed to deliver a stronger path for growth and financial stability and avoid slipping into a state of financial and economic stagnation The report also examines how the rise of nonbank financing has altered the impact of monetary policy and finds that fears of a decline in the effectiveness of monetary policy are unfounded It appears that the transmission of monetary policy is if anything stronger in economies with larger nonbank financial sectors Finally the report examines the link between corporate governance investor protection and financial stability in emerging market economies It finds that the improvements over the past two decades have helped bolster the resilience of their financial systems These benefits strengthen the case for further reform
