The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that *The Meritocracy Trap* prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity

The Daddy Shift Jeremy A. Smith, 2009-06-01 A revealing look at stay at home fatherhood for men their families and for American society It's a growing phenomenon among American families fathers who cut back on paid work to

focus on raising children But what happens when dads stay home What do stay at home fathers struggle with and what do they rejoice in How does taking up the mother s traditional role affect a father s relationship with his partner children and extended family And what does stay at home fatherhood mean for the larger society In chapters that alternate between large scale analysis and intimate portraits of men and their families journalist Jeremy Adam Smith traces the complications myths psychology sociology and history of a new set of social relationships with far reaching implications As the American economy faces its greatest crisis since the Great Depression Smith reveals that many mothers today have the ability to support families and fathers are no longer narrowly defined by their ability to make money they have the capacity to be caregivers as well The result Smith argues is a startling evolutionary advance in the American family one that will help families better survive the twenty first century As Smith explains stay at home dads represent a logical culmination of fifty years of family change from a time when the idea of men caring for children was literally inconceivable to a new era when at home dads are a small but growing part of the landscape Their numbers and cultural importance will continue to rise and Smith argues that they must rise as the unstable global creative technological economy makes flexible gender roles both more possible and more desirable But the stories of real people form the heart of this book couples from every part of the country and every walk of life They range from working class to affluent and they are black white Asian and Latino We meet Chien who came to Kansas City as a refugee from the Vietnam War and today takes care of a growing family Kent a midwestern dad who nursed his son through life threatening disabilities and Kent s wife Misun who has never doubted for a moment that breadwinning is the best thing she can do for her family Ta Nehisi a writer in Harlem who sees involved fatherhood as the ultimate service to black people Michael a gay stay at home dad in Oakland who enjoys a profoundly loving and egalitarian partnership with his husband and many others Through their stories we discover that as America has evolved and diversified so has fatherhood
