to the heart of the Russian story from the formation of a nation to its early legends including Ivan the Terrible and Catherine the Great to the rise and fall of the Romanovs the Russian Revolution the Cold War Chernobyl and the end of the Soviet Union plus the rise of a politician named Vladimir Putin and the events leading to the Ukrainian war **Hitler and Stalin** Laurence Rees,2021-02-02 Laurence Rees brilliantly combines powerful eye witness testimony vivid narrative and compelling analysis in this superb account of how two terrible dictators led their countries in the most destructive and inhumane war in history Professor Sir Ian Kershaw author of Hitler Hubris and Hitler Nemesis Two 20th century tyrants stand apart from all the rest in terms of their ruthlessness and the degree to which they changed the world around them Briefly allies during World War II Adolph Hitler and Josef Stalin then tried to exterminate each other in sweeping campaigns unlike anything the modern world had ever seen affecting soldiers and civilians alike Millions of miles of Eastern Europe were ruined in their fight to the death millions of lives sacrificed Laurence Rees has met more people who had direct experience of working for Hitler and Stalin than any other historian Using their evidence he has pieced together a compelling comparative portrait of evil in which idealism is polluted by bloody pragmatism and human suffering is used casually as a political tool It s a jaw dropping description of two regimes stripped of moral anchors and doomed to destroy each other and those caught up in the vicious magnetism of their leadership *Poles Apart* Alison Goldsworthy,Laura Osborne,Alexandra Chesterfield,2021-09-09 Why do people become divided What steps can we all take to reduce hostility and bring about understanding *Poles Apart* has the answers In *Poles Apart* an expert on polarisation a behavioural scientist and a professional communicator explain why we are so prone to be drawn into rival often deeply antagonistic factions They explore the shaping force of our genetic make up on our fundamental views and the nature of the influences that family friends and peers exert They pinpoint the economic and political triggers that tip people from healthy disagreement to dangerous hostility and the part played by social media in spreading entrenched opinions And they help us to understand why outlooks that can seem so bizarre and extreme to us seem so eminently sensible to those who hold them Above all they show what practical and effective steps we can all take to narrow divisions build respect for others and create a greater degree of common understanding

Poles Apart is an extraordinary achievement fresh deeply authoritative and entertaining on every page Everyone talks about polarisation but no one does it like Goldsworthy Osborne and Chesterfield You ll finish this book wiser kinder and more hopeful than when you started it Jamie Susskind author of *Future Politics* A fascinating and thought provoking analysis of the divisions between us how we bridge them how we reshape the world and ourselves too Essential reading Cathy Newman presenter of Channel 4 News and author *Asks the best question I have ever heard* And critically offers solutions A must read Rory Sutherland Vice Chairman of Ogilvy UK and author of *Alchemy* Technology may have connected the world but it s now being exploited to divide and polarise us This is a pivotal moment for this book to be written read and understood Peter Gabriel musician **Blaise Cendrars** Eric

Russia Melissa-Ellen Dowling,2021-07-18 Writing Russia offers the first systematic analysis of Anglophone national histories of Russia By deconstructing preeminent historical works on the history of Russia this book provides insight into the hidden ideological underpinnings of the texts and their representations of Russia in the West It demonstrates that historians employ a range of literary techniques to smooth over contradictions in their narratives of Russia generating a seemingly cohesive depiction of Russia as a liminal Other nation This is a process that this book theorises as discordus representing an original conceptual framework for examining national history texts It identifies patterns in the language and emplotment of

Anglophone Russian histories across several defining historical epochs from the Mongol conquests to the Putin presidency revealing the extent to which historians wield the narrative power to make or break nations Postmodern in approach the work pushes the boundaries of historiography and calls into question the nature of history **Sevastopol's Wars** Mungo

Melvin CB OBE,2017-05-18 Sevastopol s Wars is the first book in any language to cover the full history of Russia s historic Crimean naval citadel from its founding through to the current tensions that threaten the region Founded by Catherine the Great the maritime city of Sevastopol has been fought over for centuries Crucial battles of the Crimean War were fought on the hills surrounding the city and the memory of this stalwart defence inspired those who fruitlessly battled the Germans

Russia in the Early Modern World Donald Ostrowski, 2022-01-25. A fundamental problem in studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world. The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities. The continuities occurred in the midst of constant change, but neither one nor the other continuities or changes alone can account for Russia's success. Instead, Russian rulers from Ivan III to Catherine II, with their hub advisors, managed to sustain a balance between the two. During the early modern period, these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know-how, mostly from Europe but also from Asia. In this respect, they were willing to look abroad for solutions to domestic problems. Russia looked westward for military weaponry and techniques; at the same time, it was expanding eastward into the Eurasian heartland. The ruling elite, and by extension the entire ruling class, worked in cooperation with the ruler to implement policies. The Church played an active role in supporting the government and in seeking to eliminate opposition to the government.

Die kürzeste Geschichte Russlands Mark Galeotti, 2022-09-29. Russland ist eine der mächtigsten Nationen der Erde mit einer imposanten Kultur, aber auch einer langen Geschichte von Krieg und Frieden, Leid, Katastrophen und blutigen Revolutionen. Der Russland-Experte Mark Galeotti widmet sich in seiner Erzählung diesem komplexen Land, das einen entsetzlichen für den Westen unverstandlichen Krieg gegen die Ukraine begonnen hat. Er durchleuchtet die russische Geschichte von ihren Anfängen mit der Kiewer Rus über den Aufstieg und Fall der Romanows, schildert die kommunistische Revolution unter Lenin und den stalinistischen Terror bis in die heutige post-sowjetische Autokratie Putins. Kann man dieses Land je verstehen? Mark Galeotti liefert die wichtigsten historischen Eckpunkte und Einblicke in die Entwicklung dieses so rtselhaften wie spannenden Landes.

Historical Dictionary of Democracy Norman Abjorensen, 2019-06-15. Democracy is easy to talk about but hard to define, in other than broad generalizations; its history is a long, complex, and contested subject. What this volume seeks to do is to explore the general evolution of political and social thinking that would eventually coalesce into what we now know as democracy, for all its imperfections and shortcomings. The question of just why some societies evolved into a democratic trajectory and others did not continues to engage the interest of historians, political scientists, sociologists, and anthropologists. Much conjecture surrounds the rise of certain elements we now recognize, if not as democratic then proto-democratic, such as collective decision-making, constraints on the exercise of power, and a degree of accountability of the

ruler to the ruled If democracy in the sense of rule by the people has two essential qualities rule by the majority and the equal treatment of free citizens then its origins however feeble are to be found in these early examples of government

Historical Dictionary of Democracy contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries This book is an excellent resource for students researchers and anyone wanting to know more about democracy

Reflecting Imperial Overstretch and New Realities Brian O'Sullivan, 2024-07-03 This book is the first comprehensive history of the British Trade Corporation which was constituted under a Royal Charter on 21st April 1917 Its charter was meant to last for sixty years but in 1926 after a turbulent existence of only nine years it was amalgamated with the Anglo Austrian Bank and absorbed into the Anglo International Bank The corporation together with its two main subsidiaries the Levant Company and the National Bank of Turkey conducted business not only in Britain but in Russia

Turkey the Middle East and in Continental Europe Although the corporation was not an agent of empire it reflected Britain's imperialistic ambitions after the First World War As a result it invested in some of the most unstable regions of the world It was also severely affected by British foreign policy which was often misjudged and at times duplicitous resulting in serious damage to British trade Within five years of its launch the British Trade Corporation needed to be refinanced The economic downturn in the early 1920s and ongoing hostilities in Eastern Europe and the Near East meant that it struggled to survive Its difficulties reflected many of those faced by Britain in general after the war and the need to come to terms with the new realities of the post war world Despite its innovative attempt to address the perceived deficiencies in Britain's financial system especially in respect of industrial finance the British Trade Corporation has been largely ignored by financial historians Based on substantial archival research this book rectifies this neglect and makes an important contribution to the financial history of interwar Britain
