Response Surface Methodology Raymond H. Myers, Douglas C. Montgomery, 1995-09-12 The primary objective of response surface methodology is to aid the statistician and other users of statistics in applying response surface procedures to appropriate problems in many technical fields Although methods are emphasized in the book a certain amount of theory is presented so that a reader with sufficient background in mathematics especially in the algebra of matrices can obtain an exposure to the theoretical development While response surface techniques are widely used it seems that a need exists for an exposition which contains a considerable amount of the basic material under a single cover At the time it is felt this book may create a continued awareness of the basic techniques among the potential users *Response Surface Methodology* Raymond H.
