Rhetorica Ad Herennium English And Latin Edition

Benjamin Thommen

Rhetorica Ad Herennium English And Latin Edition:

Latin Rhetoric and Education in the Middle Ages and Renaissance James J. Murphy, 2023-07-21 The essays in this volume deal with the history of rhetoric and education for the thousand years from the early Middle Ages to the European Renaissance They represent the author's pioneering efforts over four decades to piece together a kind of mosaic which will provide elements necessary to construct a history of that thousand years of language activity Some essays deal with individual writers like Giles of Rome Peter Ramus Gulielmus Traversanus or Antonio Nebrija some focus on the influence of Cicero and Quintilian and other ancient sources The essays dealing specifically with education open up different inquiries into the ways language use was promoted and by whom Others explore the relations between Latin rhetoric and medieval English literature and finally several deal with the impact of printing a subject still not completely understood

Equivocation in Early Modern England Máté Vince, 2025-08-28 *Equivocation in Early Modern England Literature Rhetoric Theology* explores ideas about concealing the truth while seemingly revealing it It is about the conflict whether historical or fictional between the interrogator's desire to gain information the suspect's desire to hide the information and the divine prohibition against lying The Gunpowder Plot supposedly led to the revelation of the doctrine of equivocation a secret teaching of the Roman Catholic Church that enabled concealing one's intentions and knowledge without lying This book examines conflicting meanings of equivocation to show how contemporary writers made sense of the theological political debates and how this in turn shaped their writings and understanding of how language works It is an intellectual history of equivocation tracing its evolution from antiquity to the present through an analysis of works by Euripides Virgil Shakespeare Donne rhetoricians from Cicero to Melancthon and theological polemicists including Henry Garnet Robert Persons George Abbot Thomas Morton and Isaac Casaubon It combines a curiosity about equivocation as a linguistic philosophical and rhetorical notion that was keenly exploited by secular writers with a scrutiny of the cultural political and religious processes that contributed to its development It explores the impact of sixteenth and seventeenth century literature education networks of correspondence and controversies on the concept of ambiguity It reveals how encounters with various forms of deception including lying strategic silence dissimulation and equivocation resulted in an ever growing anxiety about and fascination with ambiguity It provides a radically new evaluation of equivocation that as Macbeth puts it in his final despair lies like truth

The Oxford History of Classical Reception in English Literature Patrick Cheney, Philip Hardie, 2015-10-29 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the

processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading *Encyclopedia of Rhetoric and Composition* Theresa Enos, 2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *The Oxford History of Classical Reception in English Literature* David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Philip R. Hardie, Jennifer Wallace, 2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume and third to appear in the series covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading **Voices and Books in the English Renaissance** Jennifer Richards, 2019-10-24 *Voices and Books in the English Renaissance* offers a new history of reading that focuses on the oral reader and the voice or performance aware silent reader rather than the historical reader who is invariably male silent and alone It recovers the vocality of education for boys and girls in Renaissance England and the importance of training in pronuntiatio delivery for oral aural literary culture It offers the first attempt to recover the voice and tones of voice especially from textual sources It explores what happens when we bring voice to text how vocal tone realizes or changes textual meaning and how the literary writers of the past tried to represent their own and others voices as well as manage and exploit their readers voices The volume offers fresh readings of

key Tudor authors who anticipated oral readers including Anne Askew William Baldwin and Thomas Nashe It rethinks what a printed book can be by searching the printed page for vocal cues and exploring the neglected role of the voice in the printing process Renaissance printed books have often been misheard and a preoccupation with their materiality has led to a focus on them as objects However Renaissance printed books are alive with possible voices but we will not understand this while we focus on the silent reader CATALOGUE OF GREEK AND LATIN CLASSICS MODERN LATINISTS AND HELLENISTS

MACARONI,1884 **Rhetorical Argumentation in Biblical Texts** Anders Eriksson,Thomas H. Olbricht,Walter Übelacker,2002-06-01 Papers presented at the Lund 2000 Conference on Rhetorical Argumentation in Biblical Texts

Patterns of Persuasion in the Gospels Burton L. Mack,Vernon K. Robbins,2008-10-30 Patterns of Persuasion in the Gospels will open the next stage in Synoptic studies Mack and Robbins have returned synoptic criticism to the road it missed when Bultmann and Dibelius decided to ignore Greco Roman education and rhetoric Starting from a sophisticated and detailed study of what the rhetorical handbooks say about the elaboration of chreiai they illuminate the most basic techniques and logic which the Gospel writers used in developing the Jesus traditions It is required reading for everyone with a serious interest in the critical study of the Gospels Stanley K Stowers Brown University Author of Letter Writing in Greco Roman Authority An impressive programmatic argument which successfully challenges conventional approaches to the Jesus tradition It demonstrates the relevance of Hellenistic rhetorical theory for composition analysis of the sayings tradition A groundbreaking study which all serious students of the gospels must consider David E Aune St Xavier College Author of The New Testament in Its Literary Environment In this important new book Mack and Robbins have clarified the patterns of persuasion that form the social historical and narrative worlds of the earliest Christians All those who want a hands on manual for studying the characters stories and argumentation of scripture will welcome this learned discussion of primary texts Highly recommended for any person who is serious about understanding the Bible Ron Cameron Wesleyan University Author of The Other Gospels **Sidney's 'The Defence of Poesy' and Selected Renaissance Literary Criticism** Gavin Alexander,2004-02-26 Controversy raged through England during the 1570 80s as Puritans denounced all manner of games pastimes as a danger to public morals Writers quickly turned their attention to their own art and the first most influential response came with Philip Sidney's Defense Here he set out to answer contemporary critics with reference to Classical models of criticism formulated a manifesto for English literature Also includes George Puttenham's Art of English Poesy Samuel Daniel's Defence of Rhyme passages by writers such as Ben Jonson Francis Bacon George Gascoigne Turn-taking

in Shakespeare Oliver Morgan,2019-08-21 Oxford Textual Perspectives is a series of informative and provocative studies focused upon literary texts conceived of in the broadest sense of that term and the technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception

history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works Whenever people talk to one another there are at least two things going on at once First and most obviously there is an exchange of speech Second and slightly less obviously there is a negotiation about how that exchange is organised about whose turn it is to talk at any given moment Linguists call this second organisational level of activity turn taking and since the late 1970s it has been central to the way in which spoken interaction is understood In spite of its obvious relevance to the study of drama however turn taking has received little attention from critics and editors of Shakespeare Turn taking in Shakespeare offers a fresh perspective on the dramatic text by reversing the priorities of traditional literary analysis Rather than focussing on what characters say it focuses on when they speak Rather than focussing on how they talk it focuses on how they gain access to the floor Its central argument is that the turn taking patterns of Shakespeare's plays are a part of what Emrys Jones has called their basic structural shaping as fundamental to dialogue as rhythm is to verse The book investigates what it means for a character to speak in or out of turn to interrupt or overlap with a previous speaker to pause before speaking or to fail to speak at all It explores how these moments are and are not signalled by the Shakespearean text how best to describe and understand them and the implications of such questions for contemporary debates about editing rhetoric prosody and early modern performance practices

Rhetoric in the European Tradition Thomas Conley, 1994 Rhetoric in the European Tradition provides a survey for the basic models of rhetoric as they developed from the early Greeks to the twentieth century Discussing rhetorical theories in the context of the times of political and intellectual crisis that gave rise to them Thomas Conley chooses carefully from the vast pool of rhetorical literature to give voice to those authors who exercised influence in their own and succeeding generations

Kommentar Zum Tristan-Roman Gottfrieds Von Strassburg, Band 3 Lambertus Okken, 1988

How to legislate with wisdom and eloquence Luís Marchili, 2016-04-16 The art of legislation that had got lost is reborn in this book from the classic tradition which conceives the laws like wise and eloquent civic speeches and the rhetoric as its basic method of a such way that the return to the ancient will be a true progress

General Catalogue of Printed Books British Museum. Department of Printed Books, 1966 **Bede the Theologian** John P.

Bequette, 2022-06-04 Revered by contemporaries and posterity for both his sanctity and his scholarship Bede 672-735 is a pivotal figure in the history of the Church Known primarily as an historian for his Ecclesiastical History of the English People Bede was also an accomplished pedagogue hagiographer and biblical scholar Bede the Theologian History Rhetoric and Spirituality takes a fresh look at this classic Christian thinker exploring the gamut of Bede's literary corpus The book investigates key themes including Bede's understanding of the theological significance of time his conception of the relationship between the temporal and eternal orders within history his theological use of rhetoric his foray into narrative theology and his spirituality The purpose of this volume is to introduce the reader to principal theological themes in Bede's

thought Bequette's thesis is that Bede was a theologian writing in continuity with the Christian tradition and yet making creative original contributions to that tradition for the sake of his contemporaries both in the monastery and in the culture at large. The method involves a close reading and analysis of key texts within Bede's corpus of writings. These texts include the Ecclesiastical History of the English People, the Life of St Cuthbert and several of Bede's biblical commentaries: On the Tabernacle, On the Temple, his homilies and didactic treatises On the Reckoning of Time, Concerning Figures and Tropes in Sacred Scripture. Bede the Theologian: History, Rhetoric and Spirituality constitutes a scholarly study of Bede's thought as an integral whole, identifying key themes and ideas that pervade his writings. Thus it can serve as an introduction to Bede's thought for non-specialists in the areas of theology, religious studies and other areas of the humanities.

Rhetorik und Stilistik / Rhetoric and Stylistics Ulla Fix, Andreas Gardt, Joachim Knape, 2008-12-19 Keine ausführliche Beschreibung für Rhetorik und Stilistik. Rhetoric and Stylistics verfügbar.

Elements of General Knowledge Henry Kett, 1803

Brill's Companion to Cicero James M. May, 2002-09-01 This volume is intended as a companion to the study of Cicero's oratory and rhetoric for both students and experts in the field. For the neophyte it provides a starting point; for the veteran Ciceronian scholar a place for renewing the dialogue about issues concerning Ciceronian oratory and rhetoric for all. A site of engagement at various levels with Ciceronian scholarship and bibliography. The book is arranged along roughly chronological lines and covers most aspects of Cicero's oratory and rhetoric. The particular strength of this companion resides in the individual, often very original, approach to sundry topics by an array of impressive contributors, all of whom have spent large portions of their careers concentrating upon the oratorical and rhetorical oeuvre of Cicero. A bibliography of relevant items from the past 25 years keyed to specific Ciceronian works completes the volume. Brill's Companion to Cicero will become the standard reference work on Cicero for many years.
