A History of Irish Economic Thought Thomas Boylan,Renee Prendergast,John

Turner,2013-03 For a country that can boast a distinguished tradition of political economy from Sir William Petty through Swift Berkeley Hutcheson Burke and Cantillon through to that of Longfield Cairnes Bastable Edgeworth Geary and Gorman it is surprising that no systematic study of Irish political economy has been undertaken In this book the contributors redress this glaring omission in the history of political economy for the first time providing an overview of developments in Irish political economy from the seventeenth to the twentieth century Logistically this is achieved through the provision of individual contributions from a group of recognized experts both Irish and international who address the contribution of major historical figures in Irish political economy along the analysis of major thematic issues schools of thought and major policy debates within the Irish context over this extended period Irrational Exuberance Robert J. Shiller,2016-08-16 Why the irrational exuberance of investors hasn't disappeared since the financial crisis In this revised updated and expanded edition of his New York Times bestseller Nobel Prize winning economist Robert Shiller who warned of both the tech and housing bubbles cautions that signs of irrational exuberance among investors have only increased since the 2008-9 financial crisis With high stock and bond prices and the rising cost of housing the post subprime boom may well turn out to be another illustration of Shiller's influential argument that psychologically driven volatility is an inherent characteristic of all asset markets In other words *Irrational Exuberance* is as relevant as ever Previous editions covered the stock and housing markets and famously predicted their crashes This edition expands its coverage to include the bond market so that the book now addresses all of the major investment markets It also includes updated data throughout as well as Shiller's 2013 Nobel Prize lecture which places the book in broader context In addition to diagnosing the causes of asset bubbles *Irrational Exuberance* recommends urgent policy changes to lessen their likelihood and severity and suggests ways that individuals can decrease their risk before the next bubble bursts No one whose future depends on a retirement account a house or other investments can afford not to read this book **From Red to Gray** Mukesh Chawla,Gordon Betcherman,Arup Banerji,2007 Conventional wisdom holds that aging populations are unfavorable for economic growth because of their potential impacts on labor supply productivity and savings When this is coupled with the increased spending pressures because of pension requirements and health care aging societies are likely to face serious fiscal problems This report addresses these concerns in the unique context of Eastern Europe and the former Soviet Union where many countries are aging rapidly without the economic resources and institutional capacity of other aging societies in Western Europe and Japan *Money, Bank Credit, and Economic Cycles* Jesús Huerta de Soto,2006 Innovations in Logistics and Supply Chain Management Technologies for Dynamic Economies Luo, ZongWei,2012-03-31 This book disseminates supply chain management and applied logistic theories technology development innovation and transformation in various economy sectors upon current advancing technological opportunities and market imperatives Provided by publisher Geld, Bankkredit und Konjunkturzyklen Jesús Huerta de Soto,2011-01-01 In dem vorliegenden Werk analysiert der Autor kritisch die ökonomischen und rechtlichen

Grundlagen unseres aktuellen Bank und Kreditsystems Diesem ist ein hoher Grad an Staatseingriffen und Regulierungen eigen So hat sich das Finanzsystem zur Achillesferse moderner Volkswirtschaften entwickelt *Reform and the Structure of the Indian Economy* Madhusudan Datta, 2020-10-29 This book studies pitfalls in value added accounting of sectoral growth in real terms in the context of liberalisation of the Indian economy Growth of sectoral gross value added can systematically deviate from that of final expenditure and gross output even maintaining the broad national accounting identity between the aggregates For an investigation along these lines input output transactions tables provide invaluable information The book discusses at length tricky questions of data handling and issues in interpretation of data As the growth rate of the economy accelerated economists observed that growth of value added came mostly from the service sector Can the service sector maintain the momentum if manufacturing fails to get charged up in spite of all reforms aimed at this objective The book studies this question in depth and addresses an audience interested in studying the Indian economy **Yojana**, 2014

Regional Unemployment Disparities Paolo Filippini, 1998 **Inflation in China** Chengsi Zhang, 2020-08-13 Inflation plays a central role in macroeconomic and financial policy regulation and its dynamic formation has gradually become a popular research topic in this field This book comprehensively studies the dynamic mechanism of inflation in China from the perspective of New Keynesian economics By combining the dynamic trajectory of price changes since China's reform and opening up under Deng Xiaoping as well as the underlying economic operating characteristics the book deploys a multifaceted approach to understand the mechanism of inflation dynamics The author explores the microfoundations of inflation dynamics and underlines their importance in the context of modern monetary policy In particular he builds upon the traditional New Keynesian Phillips curve to include factors of globalization and financialization within the inflation formation regime of modern China As the book explores the dynamic mechanism of China's inflation from different perspectives including inflation cycle theory price index internal conduction price index chain transmission capital rotation and industry inflation mechanisms international readers will gain a full understanding of China's inflation monetary policy and economy

Service Science and Logistics Informatics: Innovative Perspectives Luo, ZongWei, 2010-03-31 This book provides both business and IT professionals a reference for practices and guidelines to service innovation in logistics and supply chain management Provided by publisher **Dynamical System and Chaos** Rui Dilão, 2023-04-06 This textbook introduces the language and the techniques of the theory of dynamical systems of finite dimension for an audience of physicists engineers and mathematicians at the beginning of graduation Author addresses geometric measure and computational aspects of the theory of dynamical systems Some freedom is used in the more formal aspects using only proofs when there is an algorithmic advantage or because a result is simple and powerful The first part is an introductory course on dynamical systems theory It can be taught at the master's level during one semester not requiring specialized mathematical training In the second part the author describes some applications of the theory of dynamical systems Topics often appear in modern dynamical systems
