Nineteenth-Century Russia Derek Offord, 2014-05-12 This new Seminar Study provides students with a rewarding introduction to nineteenth century Russia This period of Russian history is of course characterised by the flowering of an enormously rich intellectual and cultural life the origins of which lie in the intelligentsia's opposition to autocratic rule Here Professor Offord introduces the reader to the period while focusing particularly on the rise of radicalism The book opens with two scene setting chapters one looking at the political and social structure peculiar to Russia and the second looking at the cultural and intellectual background Then within a chronological framework the author examines all the great events in the history of Russian radicalism from the Decembrist Revolt in 1825 to the going to the people in 1874 and the assassination of Alexander II in 1881 However

throughout the text sustained attention is given to the intellectual dimension of nineteenth century Russian history Professor Offord examines all the major schools of thought and looks in detail at all the great thinkers of the day including Chaadaev Belinsky Herzen Chernyshevsky Bakunin and Tolstoy This new book will provide essential reading for anyone studying nineteenth century Russia Lucid accessible and immensely readable it is a formidable achievement *Russia Engages the World, 1453-1825* Cynthia H. Whittaker, Edward Kasinec, Robert H. Davis, 2003 *Russia Engages the World 1453 1825* an elegant new book created by a team of leading historians in collaboration with The New York Public Library traces Russia's development from an insular medieval liturgical realm centered on Old Muscovy into a modern secular world power embodied in cosmopolitan St Petersburg Featuring eight essays and 120 images from the Library's distinguished collections it is both an engagingly written work and a striking visual object Anyone interested in the dramatic history of Russia and its extraordinary artifacts will be captivated by this book Before the late fifteenth century Europeans knew virtually nothing about Muscovy the core of what would become the Russian Empire The rare visitor merchant adventurer diplomat described an exotic alien place Then under the powerful tsar Peter the Great St Petersburg became the architectural embodiment and principal site of a cultural revolution and the port of entry for the Europeanization of Russia From the reign of Peter to that of Catherine the Great Russia sought increasing involvement in the scientific advancements and cultural trends of Europe Yet Russia harbored a certain dualism when engaging the world outside its borders identifying at times with Europe and at other times with its Asian neighbors The essays are enhanced by images of rare Russian books illuminated manuscripts maps engravings watercolors and woodcuts from the fifteenth to the nineteenth centuries as well as the treasures of diverse minority cultures living in the territories of the Empire or acquired by Russian voyagers These materials were also featured in an exhibition of the same name mounted at The New York Public Library in the fall of 2003 to celebrate the tercentenary of St Petersburg *Science, Women and Revolution in Russia* Koblit, 2014-01-02 DATAFIELD Nominated for the History of Women in Science Prize by the <http://depts.washington.edu/hsexec> History of Science Society **Journeys to a Graveyard** Derek Offord, 2006-07-01 *Journeys to a Graveyard* examines the descriptions provided by eight Russian writers of journeys made to western European countries between 1697 and 1880 The descriptions reveal the mentality and preoccupations of the Russian social and intellectual elites during this period The travellers' perceptions of western European countries are treated here as an ambivalent response to a civilization with which Russia was belatedly coming into close contact as a result of the imperial ambition of the Russian state and the westernization of the Russian elites The travellers perceived the most advanced European countries as superior to Russia in terms of material achievement and the maturity and refinement of their cultures but they also promoted a view of Russia as in other respects superior to the western nations Heavily influenced from the late eighteenth century by Romanticism and by the rise of nationalism in the west they tended to depict European civilization as moribund By this means they managed to define their own emergent nation in a contrastive way as having
