the reformer played an increasing part in Strasbourg while his renown started growing abroad In Strasbourg he was put in
charge of the St Thomas parish located closer to the city center Along with his colleagues he appealed relentlessly to the City
Council for a stricter moral discipline for struggle against anabaptism and celebration of the mass which was suspended on
February 20 1529 Moreover he engaged in great activity in publishing five important biblical commentaries Outside
Strasbourg he intensified his evangelical propaganda in countries speaking romanic languages His active involvement in the
Berne disputation in January 1528 helped him make contact with the European Reformation In the disastrous sacramentary
strife he continued taking part in advocating concord between the protestant theologians That is why he joined Philip von
Hessen in setting up the Marburg colloquium Faced with whose partial failure he did his best to encourage Zwingli's project

of a defensive alliance among evangelical cities in Switzerland and in the South West of Germany called the Burgrecht

Sacred Repertories in Paris under Louis XIII Peter Bennett, 2023-04-14 The study of sacred music under Louis XIII r 1610 43 has advanced little in the past hundred years Despite some important recent contributions by the late Denise Launay and others much of our current perception of the Latin sacred music of the period is still informed by the pioneering research undertaken by Henri Quittard in the early years of the twentieth century Even with Quittard s work however the almost complete absence of surviving sources has severely limited our understanding of this era But by re examining one of the seventeenth century treasures of the Biblioth que nationale MS Vma r s 571 Sacred Repertories in Paris under Louis XIII reveals that far from being a transitional period in which little music of any interest was produced the reign of Louis XIII witnessed a flowering of musical activity and the development of musical techniques normally associated with the reign of Louis XIV Based on an exhaustive and innovative manuscript study Sacred Repertories shows that Vma r s 571 a largely anonymous source of previously unknown provenance was copied in Paris by the composer Andr Pechon and that it preserves three previously unidentified repertories with connections to the court of Louis XIII The repertoire of the musique de la chambre until now considered a secular institution shows it to have been an equal partner of the chapelle in the provision of sacred music at court The repertoire of the royal parish church of Saint Germain l Auxerrois the only working liturgical repertory surviving from the century illustrates musical practices at this important collegiate church And the repertoire of the Royal Benedictine Abbey of Montmartre testifies to the richness of musical tradition in Parisian convents during a period when no other comparable music from France survives Sacred Repertories thus transforms our understanding of the musical landscape of seventeenth century
