**The English Scholar's Library of Old and Modern Works: A handful of pleasant delights [by] Clement Robinson and divers others**, 1895      **The Death of Lord Nelson** William Beatty, 1895      "An" English Garner Edward Arber, 1895      The First Blast of the Trumpet Against the Monstrous Regiment of Women John Knox, 1895      Outrages Naomi Wolf, 2020-10-09

From New York Times bestselling author Naomi Wolf *Outrages* explores the history of state sponsored censorship and violations of personal freedoms through the inspiring forgotten history of one writer's refusal to stay silenced. Newly updated first North American edition a paperback original. In 1857 Britain codified a new civil divorce law and passed a severe new obscenity law. An 1861 Act of Parliament streamlined the harsh criminalization of sodomy. These and other laws enshrined modern notions of state censorship and validated state intrusion into people's private lives. In 1861 John Addington Symonds a twenty one year old student at Oxford who already knew he loved and was attracted to men hastily wrote out a seeming renunciation of the long love poem he'd written to another young man. *Outrages* chronicles the struggle and eventual triumph of Symonds who would become a poet biographer and critic at a time in British history when even private letters that could be interpreted as homoerotic could be used as evidence in trials leading to harsh sentences under British law. Drawing on the work of a range of scholars of censorship and of LGBTQ legal history Wolf depicts how state censorship and state prosecution of same sex sexuality played out decades before the infamous trial of Oscar Wilde shadowing the lives of people who risked in new ways scrutiny by the criminal justice system. She shows how legal persecutions of writers and of men who loved men affected Symonds and his contemporaries including Christina and Dante Gabriel Rossetti, Algernon Charles Swinburne, Walter Pater and the painter Simeon Solomon. All the while Walt Whitman's *Leaves of Grass* was illicitly crossing the Atlantic and finding its way into the hands of readers who reveled in the American poet's celebration of freedom, democracy and unfettered love. Inspired by Whitman and despite terrible dangers he faced in doing so Symonds kept trying stubbornly to find a way to express his message that love and sex between men were not morbid and deviant but natural and even ennobling. He persisted in various genres his entire life. He wrote a strikingly honest secret memoir which he embargoed for a generation after his death enclosing keys to a code that the author had used to embed hidden messages in his published work. He wrote the essay *A Problem in Modern Ethics* that was secretly shared in his lifetime and would become foundational to our modern understanding of human sexual orientation and of LGBTQ legal rights. This essay is now rightfully understood as one of the first gay rights manifestos in the English language. Naomi Wolf's *Outrages* is a critically important book not just for its role in helping to bring to new audiences the story of an oft forgotten pioneer of LGBTQ rights who could not legally fully tell his own story in his lifetime. It is also critically important for what the book has to say about the vital and often courageous roles of publishers, booksellers and freedom of speech in an era of growing calls for censorship and ever escalating state violations of privacy. With *Outrages* Wolf brings us the inspiring story of one man's refusal to be silenced and his belief in a future in which everyone would have the freedom to love and to speak.

Spanos,2017-07-31 In his book *The End of Education Toward Posthumanism* William V Spanos critiqued the traditional Western concept of humanism arguing that its origins are to be found not in ancient Greece s love of truth and wisdom but in the Roman imperial era when those Greek values were adapted in the service of imperialism on a deeply rooted metaphysical level Returning to that question of humanism in the context of the United States war on terror in the post 9 11 era *Toward a Non humanist Humanism* points out the dehumanizing dynamics of Western modernity in which the rule of law is increasingly made flexible to defend against threats both real and potential Spanos considers and assesses the work of thinkers such as Giorgio Agamben Alain Badiou Judith Butler Jacques Ranci re and Slavoj i ek as humanistic reformers and concludes with an effort to imagine a different kind of humanism a non humanist humanism in which the old binary of friend versus foe gives way to a coming community without ethnic cultural or sexual divisions

*Versions of Censorship* Mairi MacInnes,2017-09-29 Censorship and all it implies in terms both of our historical understanding and of issues of enormous moment in contemporary life defies brief definition because it is an idea that always engages our prejudices penetrates to the dim regions where our manners and mores take form and shapes our attitude to the rule law while at the same time the responses it evokes whether pernicious or benevolent depend upon the actualities of the historical moment Censorship is fascinating because its theory demands some decision on its practice whenever there is an intellectual or political crisis it is a measure of individual rationality and liberalism History which has accelerated so powerfully in recent decades has diffused our attention and we tend to overlook the most urgent of the threats to ourselves from ourselves Censorship is one of the gauges of civilization and it has always aroused men s most passionate and partisan feelings The issues involved exploded into the modern world with John Milton s *Areopagitica* in 1644 and have become ever more pressing as our world has grown smaller and smaller This anthology is therefore of urgent relevance to our own lives and times Milton s thesis rests upon the issue of religious belief and it introduces the book s first part *Censorship and Belief* With *Censorship and Fact* the book moves to the conflict of the interests of science and freedom of speech with those of the state In *Censorship and the Imagination* the issue turns on the question of what art is and how it functions in society And finally comes *Self Censorship* with Dostoievsky and Freud opening up that modern vista where neurosis and politics meet
