Ancient Rome in So Many Words Christopher Francese, 2007 The word histories in this book use language as a window into the culture of ancient Rome The hidden stories behind common Latin words illustrate interesting aspects of Roman life while more rare terms shed light on noteworthy facets of this ancient culture Avoiding traditional caricatures of the Romans as uniquely noble or depraved this book uses the Latin vocabulary to figure out what mattered to the Romans themselves and how they thought about it Interweaving quotations anecdotes and analysis in a lighthearted and readable way Christopher Francese holds the mirror of language up to the obsessions and blind spots of the Romans and by extension to some of our own as well Back cover
