

Aesthetics: Philosophy of Art

- *Plato*: art imitates reality. By focusing on mere appearances, art distracts us from the truth and appeals to socially destructive emotions. It provides no real knowledge and undermines personal and social well-being
- *Aristotle*: art does not imitate particular things; rather it identifies universal ideals and values. It also *purges* us of our erotic and aggressive passions (*catharsis*)

Kottman, 2017-04-03 Philosophers working on aesthetics have paid considerable attention to art and artists of the early modern period Yet early modern artistic practices scarcely figure in recent work on the emergence of aesthetics as a branch of philosophy over the course the eighteenth century This book addresses that gap elaborating the extent to which artworks and practices of the fifteenth through the eighteenth centuries were accompanied by an immense range of discussions about the arts and their relation to one another Rather than take art as a stand in for or reflection of some other historical event or social phenomenon this book treats art as a phenomenon in itself The contributors suggest ways in which artworks and practices of the early modern period make aesthetic experience central to philosophical reflection while also showing art's need for philosophy *Philosophy of the Arts* Gordon Graham, 2006-09-07 A new edition of this bestselling introduction to aesthetics and the philosophy of art Includes new sections on digital music and environmental aesthetics All other chapters have been thoroughly revised and updated *Aesthetics and the Philosophy of Art* Prabha Shankar Dwivedi, 2021-07-22 This volume brings together the finest research on aesthetics and the philosophy of art by stalwart critics and leading scholars in the field It discusses various themes such as the idea of aesthetic perception the nature of aesthetic experience attitude theory the relation of art to morality representation in art and the association of aesthetics with language studies in the Indian tradition It deliberates

Aesthetics Edited by: Kisak,2015-11-12 Aesthetics is a branch of philosophy dealing with the nature of art beauty and taste with the creation and appreciation of beauty It is more scientifically defined as the study of sensory or sensori emotional values sometimes called judgments of sentiment and taste More broadly scholars in the field define aesthetics as critical reflection on art culture and nature In modern English the term aesthetic can also refer to a set of principles underlying the works of a particular art movement or theory for example the Cubist aesthetic For some aesthetics is considered a synonym for the philosophy of art since Hegel while others insist that there is a significant distinction between these closely related fields In practice aesthetic judgement refers to the sensory contemplation or appreciation of an object not necessarily an art object while artistic judgement refers to the recognition appreciation or criticism of art or an art work Philosophical aesthetics has not only to speak about art and to produce judgments about art works but has also to give a definition of what art is Art is an autonomous entity for philosophy because art deals with the senses i e the etymology of aesthetics and art is as such free of any moral or political purpose Hence there are two different conceptions of art in aesthetics art as knowledge or art as action but aesthetics is neither epistemology nor ethics This book concentrates on the branch of philosophy called aesthetics

Aesthetic Disinterestedness Thomas Hilgers,2016-12-01 The notion of disinterestedness is often conceived of as antiquated or ideological In spite of this Hilgers argues that one cannot reject it if one wishes to understand the nature of art He claims that an artwork typically asks a person to adopt a disinterested attitude towards what it shows and that the effect of such an adoption is that it makes the person temporarily lose the sense of herself while enabling her to gain a sense of the

other Due to an artwork's particular wealth multiperspectivity and dialecticity the engagement with it cannot culminate in the construction of world views but must initiate a process of self-critical thinking which is a precondition of real self-determination Ultimately then the aesthetic experience of art consists of a dynamic process of losing the sense of oneself while gaining a sense of the other and of achieving selfhood In his book Hilgers spells out the nature of this process by means of rethinking Kant's and Schopenhauer's aesthetic theories in light of more recent developments in philosophy specifically in hermeneutics critical theory and analytic philosophy and within the arts themselves specifically within film and performance art

The Abuse of Beauty Arthur C. Danto, 2003 Leading art critic and philosopher Arthur Danto here explains how the anti-beauty revolution was hatched and how the modernist avant-garde dislodged beauty from its throne Danto argues not only that the modernists were right to deny that beauty is vital to art but also that beauty is essential to human life and need not always be excluded from art
