American Diplomacy Paul Sharp, Geoffrey Wiseman, 2012-01-20 These essays examine questions arising from the Obama administration's efforts to revive American diplomacy and its response to the ways in which diplomacy itself is being transformed The essays examine these questions from a variety of theoretical and practical perspectives provided by scholars and diplomats from around the world and within the United States A common focus of the collection is on how diplomacy's contribution to the effectiveness of foreign policy has been undervalued in the United States by governments the foreign policy community and academics Together the essays seek to raise awareness of American diplomacy conducted at all levels of government and society They consider its future prospects in the context of America's economic difficulties and the anticipated further erosion of its international position And they ask how American diplomacy may be strengthened in the interests of international peace and security whether under a second term Obama administration or the leadership of a new president

Chinese Negotiating Behavior Richard H. Solomon, 1999 After two decades of hostile confrontation China and the United States initiated negotiations in the early 1970s to normalize relations Senior officials of the Nixon Ford Carter and Reagan administrations had little experience dealing with the Chinese but they soon learned that their counterparts from the People's Republic were skilled negotiators This study of Chinese negotiating behavior explores the ways senior officials of the PRC Mao Zedong Zhou Enlai Deng Xiaoping and others managed these high level political negotiations with their new American old friends It follows the negotiating process step by step and concludes with guidelines for dealing with Chinese officials Originally written for the RAND Corporation this study was classified because it drew on the official negotiating record It was subsequently declassified and RAND published the study in 1995 For this edition Solomon has added a new introduction and Chas Freeman has written an interpretive essay describing the ways in which Chinese negotiating behavior has and has not changed since the original study The bibliography has been updated as well

The Realities of Reality - Part IV: The Reality Behind Achieving World Peace Fritz Dufour, MBA, DÉSS, 2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While

war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world s superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe

Negotiating on the Edge Scott Snyder,1999 The ordeal of negotiating with North Koreans during the Cold War has left the impression of a crazy and bizarre diplomacy of negotiators who insult and provoke their Western counterparts while fabricating crises and fomenting discord As *Negotiating on the Edge* reveals however there is not only a method to this madness but also an ongoing shift toward a less provocative negotiating style Drawing on interviews with an eminent cast of U S officials and marshalling extensive research on North Korea past and present Scott Snyder traces the historical and cultural roots of North Korea s negotiating behavior and exposes the full range of tactics in its diplomatic arsenal He explains why North Koreans behave as they do and he argues that there is in fact an internal logic to what often seems to be outrageous conduct Finally Snyder explores how economic desperation and the end of the Cold War have forced North Korea to modify its negotiating style and objectives Focusing on the U S negotiating experience with North Korea in the 1990s Snyder also deals comparatively with recent South Korean and multilateral attempts to engage Pyongyang **The U.S. Army War College Guide to National Security Issues** ,2010
