Aptis Practice Test:

Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning Zou, Bin, Thomas, Michael, 2019-12-06 The pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning Innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes Recent Developments in Technology Enhanced and Computer Assisted Language Learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning Featuring an array of topics such as artificial intelligence teacher preparation and distance learning this book is ideal for teachers language instructors IT specialists instructional designers curriculum developers researchers education professionals academicians administrators practitioners and students Re-Vision and Re-Form in English for Academic Purposes Contexts after the Pandemic Hande Işıl Işık, Elif Kantarcıoğlu, Ayça Üner, Carole Thomas, 2023-03-16 With the breakout of COVID 19 the current decade has brought a plethora of challenges and opportunities requiring a significant shift in our lives most importantly in the area of education Throughout most of 2020 the pandemic presented many issues requiring us to broaden our thinking and harness our creativity to develop and adopt solutions At that time the sudden shift did not leave us much time to reflect on these changes We are now in a time of great innovation within English for Academic Purposes EAP contexts To this end the volume shares the experiences and reflections of different stakeholders including EAP practitioners teacher trainers assessment specialists and educational leaders and their response to the unexpected challenges and opportunities brought about by the pandemic The chapters specifically focus on how the pandemic has influenced and shaped our lives and future plans in the creation of our new normal **APTIS Oriented Practice Material** Jana Enríquez, Patricia Alegría, 2019-03-20 Practice material for the APTIS Reading Vocabulary Grammar Speaking and Writing with answer KEYS with EXPLANATIONS Speaking and Writing SAMPLE ANSWERS and additional exercises Note Vocabulary Grammar Speaking and Writing in this book are based on the Reading test content for a more comprehensive practice experience **Teacher Involvement in High-Stakes Language Testing** Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best

addressed by means of training and not by barring educators from participating in high stakes language testing. It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy. Moreover, teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices. High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students.

The Routledge Handbook of Second Language Acquisition and Language Testing Paula Winke, Tineke Brunfaut, 2020-12-28. This Handbook with 45 chapters written by the world's leading scholars in second language acquisition (SLA) and language testing dives into the important interface between SLA and language testing, shared ground where researchers seek to measure second language performance to better understand how people learn their second languages. The Handbook also reviews how to best measure and evaluate the second language (L2) learners' personal characteristics, backgrounds, and learning contexts to better understand their L2 learning trajectories. Taking a transdisciplinary approach to research, the book builds upon recent theorizing and measurement principles from the fields of applied linguistics, cognitive science, psychology, psycholinguistics, psychometrics, educational measurement, and social psychology. The Handbook is divided into six key sections: 1. Assessment concepts for SLA researchers; 2. Building instruments for SLA research; 3. Measuring individual differences; 4. Measuring language development; 5. Testing specific populations; and 6. Measurement principles for SLA researchers.

Examining Young Learners: Research and Practice in Assessing the English of School-age Learners Szilvia Papp, Shelagh Rixon, 2018 The proposed book on child second language L2 development and assessment will be a state of the art account of what we currently know about how children learn L2s in formal contexts and how that knowledge impacts on the design development and evaluation of language assessment products for young learners The uniqueness of child L2 development within the classroom is highlighted by considering children s L2 needs typical patterns of development and the role of instruction and assessment in how children learn Common issues shared in child L2 acquisition studies language testing and educational assessment are explored by linking research carried out within the educational academic and testing communities Several case studies are described from different educational contexts around the world where teaching and

assessment of young language learners takes place. In particular, the book presents the Cambridge English approach to assessing young learners of English and presents a framework for the development research and validation activities around the Cambridge English suite battery for children.

Revisiting the Assessment of Second Language Abilities: From Theory to Practice Sahbi Hidri, 2018-01-12 This book presents an overview of revisiting the assessment of language abilities. It also showcases how the measurement of such constructs can result in negative or positive washback and how outcomes might be conducive to repercussions that decide on the future of many stakeholders. The 23 chapters were selected among tens of chapters received from different contexts that addressed the issue of revisiting the assessment of language abilities such as Tunisia, Ukraine, Algeria, Russia, KSA, Sudan, Egypt, Canada, Kurdistan, UK, USA, Iran, Turkey, etc. These contexts have highlighted the necessity to revisit the different constructs which should be assessed with a clear and straightforward foundation on students' learning objectives and their actual language ability. To do so, most of the chapters present hands-on use of relevant statistical tests that might serve in revisiting the construct definition both theoretically and operationally. Perhaps the sole and intricate question that the authors of these contributions ask is what it means to revisit the assessment of the construct of individualized language ability and how. In addition, the book accentuates the momentousness and significance of reflecting on test fairness and validation as the mainspring and backbone for democratization of assessment. This book appeals to a broad readership such as English Language Teaching (ELT) practitioners, language teachers, students, testing organizations, policy makers, test designers, writers of test specifications, testing experts, researchers, program evaluators, especially in the Middle East and North Africa (MENA) as well as other international contexts.

English Language Proficiency Testing in Asia Lily I-Wen Su, Cyril J. Weir, Jessica R. W. Wu, 2019-11-19 As the demand for English language education grows in Asia, there has been a parallel growth in the development and implementation of standardized tests at the local level. Offering much needed context on locally produced tests in Asia, contributors examine emerging models for English language assessment and the impact these large scale tests have on the teaching and learning of English. Chapters address the following well-known and developing high stakes tests in different regions across Asia: the GEPT, the TEPS, the VSTEP, the CET, the EIKEN, and TEAP, and the ELPA. Brought together by world renowned testing assessment scholar Cyril Weir and the Language Training and Testing Center (L TTC), one of Asia's leading testing institutions based in Taiwan, this volume is a useful reference for evaluating, developing, and validating local tests of English and their societal impact. Comprehensive and research-based chapters cover historic backgrounds, sociocultural contexts, test quality, international standing, and future
