Arab Awakening And Islamic Revival The Politics Of Ideas In The Middle East By Kramer Martin Seth February 28 2008 Paperback:

Arab Awakening and Islamic Revival Martin Kramer, 2008 Over the past decade the political ground beneath the Middle East has shifted Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation At the same time Islam as an ideology has spread across the region and Islamists bid to capture the center of politics Most Western scholars and experts once hailed the redemptive power of Arabism Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism and the misrepresentation of both in the West The first part of the book argues that Arab nationalism the so called Arab awakening bore within it the seeds of its own failure Arabism as an idea drew upon foreign sources and resources Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism Ultimately Arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied Kramer's essays together form the only chronological telling and the at fully documented postmortem of Arabism The second part of the book examines the similar failings of Islamism whose ideas are Islamic reworkings of Western ideological radicalism Its effect has been to give new life to old rationales for oppression authoritarianism and sectarian division Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history As the region moves fitfully past ideology Kramer's perspective is more compelling than at any time in the past in Western academe no less than among many in the Middle This book will be of interest to sociologists political scientists economists and Middle East specialists

The Arab Awakening Tariq Ramadan, 2012-04-05 Tariq Ramadan is one of the most acclaimed figures in the analysis of Islam and its political dimensions today In *The Arab Awakening* he explores the opportunities and challenges across North Africa and the Middle East as they look to create new more open societies He asks can Muslim countries bring together Islam pluralism and democracy without betraying their identity Will the Arab world be able to reclaim its memory to reinvent education women's rights social justice economic growth and the fight against corruption Can this emancipation be envisioned with Islam experienced not as a straitjacket but as an ethical and cultural wealth Arguing that the debate cannot be reduced to a confrontation between two approaches the modern and secular versus the traditional and Islamic Ramadan demonstrates that not only are both of these routes in crisis but that the Arab world has an historic opportunity to stop blaming the West to jettison its victim status and to create a truly new dynamic Tariq Ramadan offers up a challenge to the Middle East what enduring legacy will you produce from the historic moment of the Arab Spring

Islam and the Arab Awakening Tariq Ramadan, 2012-10-12 One of the most important developments in the modern history of the Middle East the so called Arab Spring began in Tunisia in December 2010 bringing down dictators sparking a civil war in Libya and igniting a bloody uprising in Syria Its long term repercussions in Egypt and elsewhere remain unclear Now one of

the world's leading Islamic thinkers examines and explains it in this searching provocative and necessary book Time Magazine named Tariq Ramadan one of the most important innovators of the twenty first century A Muslim intellectual and prolific author he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West In Islam and the Arab Awakening he explores the uprisings offering rare insight into their origin significance and possible futures As early as 2003 he writes there had been talk of democratization in the Middle East and North Africa The U S government and private organizations set up networks and provided training for young leaders especially in the use of the Internet and social media and the West abandoned its unconditional support of authoritarian governments But the West did not create the uprisings Indeed one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled Something irreversible has taken place dictators have been overthrown without weapons But he writes democratic processes are only beginning to emerge and unanswered questions remain What role will religion play How should Islamic principles and goals be rethought Can a sterile polarizing debate between Islamism and secularism be avoided Avoiding both naive confidence and conspiratorial paranoia Ramadan voices a tentative optimism If a true civil society can be established he argues this moment's fragile hope will live Between Memory and Desire R. Stephen Humphreys, 2005-11-16 PRAISE FOR THE FIRST EDITION Humphreys brings a historian's deep and dispassionate perspective to the modern Middle East In Between Memory and Desire he poses incisive questions elaborates convincing arguments and does not shy from tackling the prickliest of topics All this is achieved with an eye for telling detail and a concise style that is rare in academic writing Humphreys's work is in the best tradition of writing on foreign cultures Objective yet sympathetic scholarly yet accessible his book ends up revealing as much about our own society as about those it describes Max Rodenbeck New York Times Book Review In this sober and highly informative book Humphreys introduces educated readers to the nuances of Middle Eastern political and social discourse He goes behind the headlines and offers a sophisticated and yet accessible analysis of Islamic polity for Western readers Library Journal People know a lot of things that aren't so warns Stephen Humphreys and then he tells us all we should really know about the Middle East a vast complex and frequently misunderstood universe It is a rare achievement that combines erudition compelling writing and personal experience Meron Benvenisti author of City of Stone Islam and Politics in the Modern Middle East (RLE Politics of Islam) Metin Heper, Raphael Israeli, 2014-04-11 The recent resurgence of Islam in the Middle East is a far more complex phenomenon than is often suggested by those analyses which reduce recent developments in the area to no more than an intensification of religiosity Islam and Politics in the Modern Middle East challenges that perception of the contemporary Middle East It explores the nature of the Islamic revival and attempts to establish the original impulse behind particular instances of Islamic resurgence It also examines the degree to which religious institutions have served as a mechanism for expressing secular demands and frustrations and investigates to what extent politics is a functional alternative to religion

Why did Islamists respond so differently to the Arab Spring? What do these different responses tell us about Islamists' ideological commitment and resilience or the contexts within which they were functioning? This book is based on fieldwork on Islamists in eight Middle Eastern countries: Egypt, Tunisia, Libya, Morocco, Yemen, Jordan, Kuwait, and Syria. The contributors trace the transformation of the Islamists' ideology, behaviour, and strategy since the beginning of the Arab Spring. The aim of the book is to show that Islamists necessarily have an interactive and dialectical relationship with the environments in which they find themselves and that their behaviour and political calculations are based on a wide range of local, regional, and global factors. They take into account the impact of the different contexts the groups found themselves in, from authoritarian to open and reformist, and contexts of armed conflict and civil war. An interdisciplinary project, the book captures the ongoing transformation of Islamist parties to explain the reasons why some movements could adapt and make shifts in their discourse and strategy, maintaining organizational coherence and unity, while others fell short and suffered major splits and schisms. The robust theoretical findings update existing literature on Islamism and advance the state of the field.

Contending Visions of the Middle East Zachary Lockman, 2010. This second edition considers how the global war on terror has changed the way the West views the Islamic world. *The Middle East, 13th Edition* Ellen Lust, 2014. Lust and her outstanding contributors have fully revised the text to take into account the watershed events that have taken place in the Middle East since the 2011 uprisings. The book also adds important coverage with a new thematic chapter on religion, society, and politics in the region, which examines the role of both Islam and Judaism. New to this edition: Every chapter has been thoroughly revised to cover all of the major changes in the region since the uprisings of 2011. The Overview section now contains a chapter on religion, society, and politics in the Middle East that examines the role of both Islam and Judaism. Expanded coverage of the role of social movements and activism in the chapter 'Actors and Public Opinion'. Country chapters have been revised to more explicitly address religion, society, and politics. In light of user feedback, the thematic chapters have been reordered to fit more naturally with teaching progression preferred by most faculty.

The Middle East Professor Shahrough Akhavi, 2009-10-15. Amidst recent hype about events in the Middle East, there have been few attempts to get below the surface and develop a fuller understanding of what politics means there. *The Middle East: The Politics of the Sacred and Secular* redresses this balance and provides essential historical and theoretical context. In this book, Shahrough Akhavi shows that the way people think about politics in the Middle East has developed in response to historical experience. Islam has obviously played a pivotal role, and the book does much to disentangle myth and reality about Islamic responses to politics. Refreshingly, however, the book focuses on the universal concepts of the individual, civil society, the state, justice, authority, and obligation, and how these have been interpreted by Middle Eastern thinkers in the twentieth and twenty-first

centuries Akhavi builds a dynamic picture of a politically exciting and engaged region The fresh perspective this book brings to global political theory and the background it gives students of politics in the Middle East make it an important addition to the World Political Theories series

Culinary Cultures of the Middle East Sami Zubaida, Richard Tapper, 1994 *The Arab Awakening* Kenneth M. Pollack, 2011-11-04 Analyzes key aspects of the 2011 Mideast turmoil such as Arab public opinion socioeconomic and demographic conditions the role of social media influence of Islamists the impact of political changes on the Arab Israeli peace process and ramifications for the United States and the rest of the world Also provides country by country analysis of Middle East political evolution Provided by publisher

Islam and Secularism in the Middle East Azzam Tamimi, John L. Esposito, 2000 In the Middle East Western inspired secularism as implemented by Atatürk Bourguiba and others is increasingly cited by Islamist intellectuals as the source of the region's social dislocation and political instability This book contributes to the debate examining the origins and growth of the movement to abolish the secularising reforms of the past century by creating a political order guided by Shariah law Other questions addressed include how plausible is Islam's challenge to the ideal and reality of secularism and what are its chances of success How significant is the rising trend of spiritual politics in the West And are we witnessing the beginning of an age of post secularism which may lead to genuine social and political reform

Islamism Tarek Osman, 2016-02-23 A political social and cultural battle is currently raging in the Middle East On one side are the Islamists those who believe Islam should be the region's primary identity In opposition are nationalists secularists royal families military establishments and others who view Islamism as a serious threat to national security historical identity and a cohesive society This provocative vitally important work explores the development of the largest most influential Islamic groups in the Middle East over the past century Tarek Osman examines why political Islam managed to win successive elections and how Islamist groups in various nations have responded after ascending to power He dissects the alliances that have formed among Islamist factions and against them addressing the important issues of Islamism's compatibility with modernity with the region's experiences in the twentieth century and its impact on social contracts and minorities He explains what Salafism means its evolution and connections to jihadist groups in the Middle East Osman speculates on what the Islamists prospects for the future will mean for the region and the rest of the world
