definitive resource for HRM students and professionals helping readers understand and implement HR to align with business needs This book provides detailed coverage of all areas essential to the HR function such as employment law employee relations learning and development performance management and reward management It also covers the HR skills needed to ensure professional success including leadership managing conflict interviewing and using statistics It is illustrated throughout in full colour and has a range of pedagogical features to consolidate learning such as source review boxes key learning points and case studies from international organizations such as IBM HSBC and Johnson and Johnson This fully updated 16th edition includes new chapters on managing remote workers and developments in digital human resource management practices There are also updates to reflect the changes throughout the HR function such as performance leadership smart reward and employee wellbeing Armstrong s Handbook of Human Resource Management Practice is suited to both professionals and students of undergraduate and postgraduate degrees It is also aligned with the Chartered Institute of Personnel and Development CIPD profession map so can be used by those studying the Associate Level 5 and Advanced Level 7 qualifications Online supporting resources include comprehensive handbooks for lecturers and students lecture slides all figures and tables toolkits and a literature review glossary and bibliography

**The Oxford Handbook of Contextual Approaches to Human Resource Management** Dr. Emma Parry, Dr. Michael J. Morley, Dr. Chris Brewster, 2021-05-25 In recent years scholars and practitioners have increasingly recognized that human resource management HRM has paid insufficient attention to the impact of context While research has been devoted to examining the impact of national context on HRM systems this literature has been largely separate from that focused on other levels of context affecting organizational choices in HRM strategies such as the impact of the organizational environment industry sector occupation or workforce characteristics In addition research has tended to consider elements of context in isolation rather than considering its impact at different levels The goal of The Oxford Handbook of Contextual Approaches to Human Resource Management is to provide a more holistic approach to developing a contextual understanding of HRM This Handbook offers a comprehensive understanding of the influence of contextual characteristics on the design and implementation of HRM systems Rather than focusing on a single level or approach to examining context the Handbook provides both conceptual and empirical analyses of different elements of context using a range of different lenses and measures In order to explore the influence of contextual factors at multiple levels the volume assembles a range of detailed accounts of how context affects the design

implementation and impact of HRM activities **Transformational HRM Practices for Hong Kong** Anna P. Y.

Tsui, Wilfred K. P.
