Design And Analysis Of A Light Cargo Uav Prototype:

Proceedings of Second International Conference in Mechanical and Energy Technology Sanjay Yadav, Abid Haleem, P. K. Arora, Harish Kumar, 2022-06-26 This book presents selected peer reviewed papers from the International Conference on Mechanical and Energy Technologies which was held on October 28 29 2021 at Galgotias College of Engineering and Technology Greater Noida India The book reports on the latest developments in the field of mechanical and energy technology in contributions prepared by experts from academia and industry The broad range of topics covered includes aerodynamics and fluid mechanics artificial intelligence nonmaterial and nonmanufacturing technologies rapid manufacturing technologies and prototyping remanufacturing renewable energies technologies metrology and computer aided inspection etc Accordingly the book offers a valuable resource for researchers in various fields especially mechanical and industrial engineering and energy technologies

The Ethics of Drone Design Dylan Cawthorne, 2023-08-04 This book presents a holistic approach to the design and use of drones It argues that this powerful technology requires high levels of ethical analysis and responsibility our moral progress must keep pace with our technological progress Drone technologies support and diminish the flourishing of certain human values impact power relations between individuals and groups and add an additional element to the complex network of humans and objects in modern society The book begins by introducing four prototype drones designed and built by the author the healthcare drone the search and rescue drone the educational drone and the spiritual drone These drones have been developed using a value sensitive design approach with values such as human welfare privacy trust environmental sustainability and justice at the forefront Ethical analyses and social impacts are taken as design inputs leading to the creation of better more responsible drone designs The book then showcases additional methods used to develop the prototype drones from the fields of engineering ethics and art including ethical frameworks ethics standards capability caution and speculative design The holistic approach reveals a more subtle and nuanced view of drones than the currently polarized characterization of the good drone or the killer drone The book concludes with recommendations for drone engineers companies lawmakers and citizens on how to support ethics in drone design The Ethics of Drone Design is an essential resource for scholars advanced students engineers and designers interested in the ethics of technology

Modelling in Engineering 2020: Applied Mechanics Arkadiusz Mężyk, Sławomir Kciuk, Roman Szewczyk, Sławomir Duda, 2021-02-12 This book includes the outcomes of the 59th Symposium Modelowanie w Mechanice Engineering Modelling in Mechanics held in Ustro from 22 February to 26 February 2020 The International Conference has an over 58 year old history and is organized by the Department of Theoretical and Applied Mechanics of Silesian University of Technology under the patronage of the Polish Society of Theoretical and Applied Mechanics Gliwice Branch Subjects of the conference are modelling of mechatronic systems machinery dynamics control systems sensitivity analysis and optimization numerical modelling and experimental methods in mechanics biomechanics heat flow analysis fluid mechanics etc The papers

are dealing with interdisciplinary problems in which mechanical phenomena are of decisive importance The potential reader of this book will find their set of papers concentrated on the use of computer aided design virtual modelling numerical simulations fast prototyping and experimental tests of mechanical systems It is an area of versatile and interdisciplinary research trends with one of the mainstreams focusing on applied mechanics Scientific and Technical Aerospace Reports ,1974 *Technical Abstract Bulletin* Defense Documentation Center (U.S.),1964 Aeronautical Engineering ,1971 A selection of annotated references to unclassified reports and journal articles that were introduced into the NASA scientific and technical information system and announced in Scientific and technical aerospace reports STAR and International aerospace abstracts IAA Jane's All the World's Aircraft ,1995 **Applied Mechanics Reviews** ,2000 **Handbook of Smart Energy Systems** Michel Fathi,Enrico Zio,Panos M. Pardalos,2023-08-04 This handbook analyzes and develops methods and models to optimize solutions for energy access for industry and the general world population alike in terms of reliability and sustainability With a focus on improving the performance of energy systems it brings together state of the art research on reliability enhancement intelligent development simulation and optimization as well as sustainable development of energy systems It helps energy stakeholders and professionals learn the methodologies needed to improve the reliability of energy supply and demand systems achieve more efficient long term operations deal with uncertainties in energy systems and reduce energy emissions Highlighting novel models and their applications from leading experts in this important area this book will appeal to researchers students and engineers in the various domains of smart energy systems and encourage them to pursue research and development in this exciting and highly relevant field **Popular Science** ,2002-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Technical Information Indexes* United States.
