Molthan-Hill,2017-11-09 The Business Student's Guide to Sustainable Management has become a core textbook for business undergraduates. With a full introduction to sustainable management, the textbook covers all subject areas relevant to business students. This second edition features fully updated chapters on how to integrate the Sustainable Development Goals into accounting, marketing, HR, and other subjects in management and business studies. Furthermore, this second edition offers brand new chapters on how to teach the Principles for Responsible Management Education (PRME) in any business discipline, how to explore new business models designed to support sustainable development, and how to crowdsource for sustainable solutions. The book contains over 40 ready-made seminars, short workshops, which enable teachers and students to integrate the Sustainable Development Goals (SDGs) into every discipline in business, including economics, operations, marketing, HR, and financial reporting. Each chapter follows the same easy-to-use format. The Business Student's Guide to Sustainable Management provides a true treasure chest of materials to support staff wanting to integrate sustainability into their teaching and provides support to effectively embed sustainability in the curriculum. The chapters also offer a starting point in developing teaching units for Masters and MBA students. The material is not just useful to people in business schools but to those involved in wider scale curriculum change and those looking to make links between different disciplines, for example, how to teach system thinking, corporate peace making, and the crowdsourcing of sustainable solutions. Online Teaching Notes to accompany each chapter are available on request with the purchase of the book.

**Inter-organisational Design of Voluntary Sustainability Initiatives** Nils Peters,2010-07-03 Companies face two main challenges in the design of voluntary sustainability initiatives (VSIs). They recognise acceptance problems by different strategic stakeholders and opposition by competing initiatives, and experience significant resource demands needed to set up VSIs and ask for more efficient solutions.

**Green Technologies and the Mobility Industry** Andrew Brown,2010-11-16 This book features 20 SAE technical papers originally published in 2009 and 2010 which showcase how the mobility industry is developing greener products and staying responsive if not ahead of new standards and legal requirements. These papers were selected by SAE International's 2010 President Dr Andrew Brown Jr, Executive Director and Chief Technologist for Delphi Corporation. Authored by international experts from both industry and academia, they cover a wide range of cutting-edge subjects including powertrain electrification, alternative fuels, new emissions standards, and remediation strategies, nanotechnology, sustainability in vehicle networking, and how various countries are also stepping up to the green challenge. Green Technologies and the Mobility Industry also offers additional useful information: the most recent Delphi Worldwide Emissions Standards booklets, which will be shipped with the print version of this title, or as part of the PDF download if you purchase the ebook version.
