journal Language Arts and Linguistics Taylor and Francis *Dictionary of 1000 Chinese Proverbs, Revised Edition* Marjorie Lin, Schalk Leonard, 2012 Proverbs offer invaluable insights into both the language and rich culture of China Organized alphabetically by pinyin transliteration these 1000 proverbs provide students with a unique tool to master the subtleties and nuances of the Chinese language Oral Traditions in Contemporary China Juwen Zhang, 2021-11-08 In Oral Traditions in Contemporary China Healing a Nation Juwen Zhang provides a systematic survey of such oral traditions as folk and fairy tales proverbs ballads and folksongs that are vibrantly practiced today Zhang establishes a theoretical framework for understanding how Chinese culture has continued for thousands of years with vitality and validity core and arbitrary identity markers and folkloric identity This framework which describes a cultural self healing mechanism is equally applicable to the exploration of other traditions and cultures in the world Through topics from Chinese Cinderella to the Grimms of China from proverbs like older ginger is spicier to the life views held by the Chinese and from mountain songs and ballads to the musical instruments like the clay vessel flute the author weaves these oral traditions across time and space into a mesmerizing intellectual journey Focusing on contemporary practice this book serves as a bridge between Chinese and international folklore scholarship and other related disciplines as well Those interested in Chinese culture in general and Chinese folklore literature and oral tradition in particular will certainly delight in perusing this book The Little Giant Encyclopedia of Proverbs David Macfarlane, 2001 For your amusement for your edification and inspiration for livening up that speech you have to give proverbs have an irresistible power These little pockets of wisdom say volumes about a culture so take a tour around the world in words You ll encounter the lively and colorful sayings from all around the world Africa and its diaspora Haiti Jamaica and African American Central and South America Mexico Native American China Japan Italy Ireland Scotland Israel and the Arab nations **Around the World in 80 Cliches** Laura Lee, 2016-09-26 Travel the world with these incredibly fun cliches Whether cliches get under your skin or make you laugh Around the World in 80 Cliches goes the extra mile to provide an essential resource for students teachers writers and anyone with a keen interest in language Each phrase and expression comes with an explanation and place of origin Cheeky and informative each cliché is presented in such a way that is sure to keep you laughing through all of your adventures *List of new and second-hand books on China and the Chinese [&c.] to be obtained of Trübner & co Trübner and co, 1889* **A Catalogue of Valuable New and Second-hand Books** Willis and Sotheran, 1877 A Catalogue of Books for the Library , 1877 **Nobel Universal Graphical Language** Milan Randic, 2010-05-24 Nobel is a pictographic language based on some 120 basic signs and many arrows of different shape that are mutually combined It is named after Alfred Nobel 1833-1896 Swedish chemist and industrialist inventor of dynamite who left most of his fortune to a foundation that annually gives awards to individuals whose work is characterized as greatest benefit to mankind known as Nobel Prizes Besides the awards for sciences and literature significantly Alfred Nobel included among others a prize for peace that besides individuals also organizations may obtain Although it would be

utopian to believe that human conflicts could be avoided if communication tools would improve the emergence of universal languages certainly cannot make the situation worse Universal languages are a communication tool which makes it possible for people of no common language to communicate They are graphic but they should be distinguished from picture writings which only passively offer information on some event or give messages Universal languages have more similarity with the sign languages that are used for people who lost hearing or the sign language of American Plains Indians who spoke different languages and could communicate by sign language that they developed However written language has some advantages over hand sign languages in that one can communicate at a great distance particularly today in the age of fax and computer communications and that one can leave messages for posterity This is not the place to argue for or against the promise of written sign languages Graphic written sign languages exist today and the best known are Chinese characters used in China and Japan The problem with Chinese characters is that there are too many characters and it is difficult to learn so many It takes years for children in China and Japan to learn so many different characters and the task would be even harder for grown people to learn if they have not done this when young Nobel is designed to remove this difficulty and is based on the following requirements 1 SMALL NUMBER OF BASIC SIGNS 2 SIGNS SHOULD BE EASY TO RECOGNIZE 3 SIGNS SHOULD BE EASY TO REPRODUCE 4 COMBINATIONS LIMITED TO THREE SIGNS 5 COMPLEMENTARY We have already mentioned that Nobel uses about 120 basic signs which can be viewed as a small number particularly in view of over 100 signs of Nobel that are so obvious that they can be easily absorbed The other requirements are also very important There are many signs that can be easily recognized but in order to be acceptable for Nobel they also need to be easily reproduced because that will facilitate communication Also when making combinations of signs one has to make some restriction in order to maintain clarity so we decided to have no more than three signs combined into single word Finally the last requirement that of complementarities needs some explanation Besides having signs that one can easily recognize and easily draw one needs some structure to be embedded into composition of signs that facilitates one to remember and learn signs easily We refer to this structure as complementary or broadly speaking associational and what it implies is that words and objects that are related should have related signs Thus for example pairs of words like man woman cat dog coffee tea good bad love hate etc should have signs that are in some opposition while words like smoke flame fire tree wood forest water sea ocean good better best should have signs that are in competition With this in mind when one sees and learns the basic signs the meaning of many combinations of signs can be in advance anticipated This helps one to learn Nobel rather fast not months not weeks perhaps not even days but a couple of hours may suffice that one may learn hundreds and hundreds of words In this respect Nobel may be unique among languages written spoken of
