

# WHAT IS MOTIF?

## MOTIF DEFINITION

- When used as a literary device, motif is any element which recurs throughout and contributes to, or creates other aspects of the narrative such as mood or theme. A motif is used consistently throughout the text and has a highly symbolic significance within it. There are a variety of ways in which a motif can be referred to, this could be through imagery, type of language or simply how the work is structured. The motif itself an item, a place or an idea, amongst other things.
- There has been confusion between a motif and a theme when it comes to written works but one easy way to tell them apart is that the motif is a tangible thing such as an item whilst the theme is not. Some people may also confuse the motif with a symbol, however a symbol is something which is used only once to make reference to something else, such as a reference to the spring for a new beginning, whereas the motif is referred to several times throughout the narrative.

## EXAMPLES OF MOTIF

There are many concepts which we could use that would fall into the category of motif - let's take a look at some of these ideas now.

- To show that something non-literal is about to break, such as a heart or a life-the image of broken glass may be used as a motif.
- Continual rain throughout a piece might be a motif to suggest a cleansing of a character.
- The sound of a barking dog may be heard by the main character to refer to their grief over the loss of their pet.
- A character finding religious items throughout the story could be used as a motif of God calling to the character.
- The use of objects or ideas relating to death such as a funeral, a coffin or a graveyard to reinforce the theme of death throughout the piece.

### Examples of Motif In Speech

- The famous speech by Martin Luther King, 'I have a dream' uses the motif of a dream throughout the speech in order to tie the ideas together and enforce his ideas surrounding the dream for the future of the country, and the world.
- In 2004, former US president, Barack Obama uses the motif of the contrasting of the blue state and red state in his speech which helps to convey the idea that the only contrast between the two, is noise.

### Examples of Motif In Literature

- William Shakespeare used the motif of light and dark in his play, Romeo and Juliet and he did this by referencing a variety of things such as the light from the moon and the stars which lit up the sky as well as the flash of a bolt of lightning.
- In Pride and prejudice by Jane Austen, we see the journey being used as a motif.
- Back to William Shakespeare once again, and this time with his play, Othello in which he uses the motif of a monster throughout the entire work to finally reference the monstrous nature of the title character.
- The glass menagerie written by Tennessee Williams, uses the notion of being abandoned as its motif. This is used to show the feelings of one of the characters who wishes to abandon his own life and disappear for good.

Modern Scandinavian Literature Markus Floris Christensen, 2024-06-17 This book explores how states and traits of anxiety are reflected in the style and structure of certain works by three key figures of modern Scandinavian literature August Strindberg Inger Christensen Karl Ove Knausgård On the basis of particular literary analyses it develops a literary phenomenology of anxiety as well as a hermeneutical theory of anxiety that considers the ways in which anxiety has been represented in various genres of modern Scandinavian literature from the last three centuries Whereas the former uncovers the ways in which anxiety is reflected in literary form and style the latter interprets the relationship between author text and reader as well as the effects of genre As Strindberg's works capture the tensions between existential indeterminism and naturalistic determinism and make way for negative aesthetic pleasure poetry such as Christensen's challenges scientific and psychiatric conceptions of anxiety and instigates a change in how humans conduct themselves in relation to the experience of anxiety Finally Knausgård's autofictive work gives voice to the socially anxious self of late modernity and incites moments of self intensification and reorganizes the fragile self of contemporary society In this way it becomes clear that literature is an outstanding archive of representations and transformations in the cultural history of anxiety Literature is an aesthetic medium of expression and reflection that represents anxiety in a number of ways that may enrich our understanding of anxiety today This work thus contributes to cultural and literary scholarship that contests the subjugation of anxiety to a scientific world view and aims to expose the imaginative and creative dimensions of anxiety that are often ignored in contemporary public discourse and policy

*Thematics Reconsidered* ,2023-11-20 Responding to a new interest in thematic studies the volume features essays by some of the leading scholars from the United States and Europe In honor of Horst S Daemmrich the co author with Ingrid Daemmrich of the handbook Themes and Motifs in Western Literature the

contributors reassess both in theory and in case studies the viability of thematics as part of contemporary literary criticism. They demonstrate the broad scope of methodologies between strict systematization of themes and motifs and reader response conceptions of theming. Special topics include a thematology of the Jewish people, motifs in folklore, a cluster on madness, hysteria, and mastery, the story of Judith, Cinderella, thematics in Dürrenmatt and Isaac Babel, chaos as a theme. A concluding chapter illuminates aspects of nineteenth century literary history.

**Transfiction** Klaus Kaindl, Karlheinz Spitzl, 2014-01-28. This volume on Transfiction understood as an aestheticized imagination of translatorial action recognizes the power of fiction as a vital and pulsating academic resource and in doing so helps expand the breadth and depth of TS. The book covers a selection of peer reviewed papers from the 1st International Conference on Fictional Translators and Interpreters in Literature and Film held at the University of Vienna, Austria, in 2011 and links literary and cinematic works of translation fiction to state of the art translation theory and practice. It presents not just a mixed bag of cutting edge views and perspectives but great care has been taken to turn it into a well rounded transficcionario with a fluid dialogue among its 22 chapters. Its investigation of translatorial action in the mirror of fiction, i.e. beyond the cognitive barrier of fact and its multiple transdisciplinary trajectories make for thought provoking readings in TS, comparative literature, as well as foreign language and literature courses.

*Harry Potter and the Classical World* Richard A. Spencer, 2015-07-20. J. K. Rowling has drawn deeply from classical sources to inform and color her Harry Potter novels with allusions ranging from the obvious to the obscure. Fluffy, the vicious three headed dog in *Harry Potter and the Sorcerer's Stone* is clearly a repackaging of Cerberus, the hellhound of Greek and Roman mythology. But the significance of Rowling's quotation from Aeschylus at the front of *Harry Potter and the Deathly Hallows* is a matter of speculation. Her use of classical material is often presented with irony and humor. This extensive analysis of the Harry Potter series examines Rowling's wide range of allusion to classical characters and themes and her varied use of classical languages. Chapters discuss Harry and Narcissus, Dumbledore's many classical predecessors, Lord Voldemort's likeness to mythical figures and magic in *Harry Potter* and classical antiquity among many topics.

**Medieval Russian Culture, Volume II** Michael Flier, Daniel Rowland, 2023-11-10. A stimulating and provocative collection, these essays challenge received notions about the culture and history of medieval Russia and offer fresh approaches to problems of textual interpretation, the theory of the medieval text, and the analysis of alternative nonverbal texts. The contributors, international specialists from many disciplines, investigate issues ranging over history, cultural anthropology, art history, and ritual. They have produced a worthy companion to the first volume of *Medieval Russian Culture*, published in 1984. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1990.
