humor She handles with great sensitivity and lyricism the sense of loss and bewilderment that arouses the child s awareness of the uncertainties of human relationships even of life itself and which finally catapults her away from childhood joys into the sorrows of the adult world   Eileen Chang: The Performativity of Self-Translation Jessica Tsui-yan Li,2025-06-16 Eileen Chang The Performativity of Self Translation by Jessica Tsui yan Li focuses on the self translation of Zhang Ailing Eileen Chang 1920 1995 one of the most important Chinese writers of the twentieth century Although self translation is overlooked in most studies of her work Chang s literary achievements are attributed in part to her lifelong self translation of her lived experiences and family sagas as well as her bilingualism This book enriches current studies of self translation by proposing a new hypothesis of theorizing self translation as a performative act characterized by its in betweenness and the aesthetic freedom that the self translator enjoys contextualized within larger debates about translation and the specific practice of self translation in Chinese history in comparison to its Western counterpart   *Global Identities in Transit* Bouchra Benlemlih,Lahoussine Hamdoune,2022-03-28 Global Identities in Transit The Ethics and Politics of Representation in World Literatures and Cultures explores the myriad aspects of identity formation and identity representation in an increasingly globalized world Covering a variety of cultural and historical experiences in addition to several texts of world literatures the contributors discuss the configurations of transnationality and transculturality in our postcolonial and globalized world Acknowledging that nationality ethnicity gender and class are continually shaped by historical processes the contributors hone in on the ways that the increase in mobility via migration diaspora and exile render identities always in transit In the face of structural inequalities and social injustices predominant in this context the chapters reflect on the moral obligations of representation This collection will be of interest to scholars of cultural studies postcolonial studies and world literature
