Modal Verbs I Spilled The Beans

JE Gale

Modal Verbs I Spilled The Beans:

The Mental Corpus John R. Taylor, 2012-05-04 This book presents a radical reconceptualization of the nature of linguistic knowledge John Taylor challenges the conventional notion that a language can be understood in terms of the interaction of syntax with a lexicon the second listing the words and the first the rules for combining them He proposes instead that an individual's knowledge of a language can be thought of as a repository of memories of linguistic experience Each encounter with the language he argues leaves a trace in our minds We record the forms of utterances the concepts and interpretations associated with them and the contexts in which they were heard or seen Features of incoming language a word a phrase a meaning a voice quality an interactional situation resonate with items already stored Similarities between stored items give rise to generalizations of varying degrees of certainty and precision which in turn are able to sanction new and innovative expressions John Taylor writes with conviction clarity and wit illustrating every stage of his argument with arresting examples His account makes a profound and original contribution to understanding the nature of language and the operations of the mind and brain His book will appeal in equal measure to linguists philosophers and cognitive scientists

The Rude Guide to Being a Better Writer David J Hayles, 2025-08-28 This book shows you how to write clearly concisely and effectively for any purpose With clear examples it will help you write for a modern world where plain English is the key to straightforward easy to understand communication

Modality, Subjectivity, and Semantic Change Heiko Narrog, 2012-07-19 This book is a cross linguistic exploration of semantic and functional change in modal markers With a focus on Japanese and to a lesser extent Chinese the book is a countercheck to hypotheses built on the Indo European languages It also contains numerous illustrations from other languages

A Construction Grammar of the English Language Thomas Herbst, Thomas Hoffmann, 2024-10-15 The present book provides an introduction to the linguistic model of Construction Grammar offering a full analysis of the grammar of the English language It covers all levels of morpho syntactic form meaning units including sentence types tense and aspect argument structure phrases idioms word and morphological constructions In line with its usage based approach all constructions are discussed using authentic corpus examples In order to illustrate how constructions can be learnt the book draws on authentic data from child language Furthermore corpus analysis is used to show which lexical items typically occur in the slots of constructions and make up their collo profile A key feature of the book is that it develops a systematic method for showing how constructions combine to form actual utterances For this purpose so called construction grids are developed which contain all the constructions that make up even the most complex sentences and show points of overlap between them

[The Routledge Handbook of Cognitive Linguistics](#) Wen Xu, John R. Taylor, 2021-06-03 The Routledge Handbook of Cognitive Linguistics provides a comprehensive introduction and essential reference work to cognitive linguistics It encompasses a wide range of perspectives and approaches covering all the key areas of cognitive linguistics and drawing on interdisciplinary and multidisciplinary research in pragmatics discourse

analysis biolinguistics ecolinguistics evolutionary linguistics neuroscience language pedagogy and translation studies The forty three chapters written by international specialists in the field cover four major areas Basic theories and hypotheses including cognitive semantics cognitive grammar construction grammar frame semantics natural semantic metalanguage and word grammar Central topics including embodiment image schemas categorization metaphor and metonymy construal iconicity motivation constructionalization intersubjectivity grounding multimodality cognitive pragmatics cognitive poetics humor and linguistic synaesthesia among others Interfaces between cognitive linguistics and other areas of linguistic study including cultural linguistics linguistic typology figurative language signed languages gesture language acquisition and pedagogy translation studies and digital lexicography New directions in cognitive linguistics demonstrating the relevance of the approach to social diachronic neuroscientific biological ecological multimodal and quantitative studies The Routledge Handbook of Cognitive Linguistics is an indispensable resource for undergraduate and postgraduate students and for all researchers working in this area

The Oxford Handbook of Lexicography Philip Durkin, 2015-11-26 This volume provides concise authoritative accounts of the approaches and methodologies of modern lexicography and of the aims and qualities of its end products Leading scholars and professional lexicographers from all over the world and representing all the main traditions and perspectives assess the state of the art in every aspect of research and practice The book is divided into four parts reflecting the main types of lexicography Part I looks at synchronic dictionaries those for the general public monolingual dictionaries for second language learners and bilingual dictionaries Part II and III are devoted to the distinctive methodologies and concerns of historical dictionaries and specialist dictionaries respectively while chapters in Part IV examine specific topics such as description and prescription the representation of pronunciation and the practicalities of dictionary production The book ends with a chronology of major events in the history of lexicography It will be a valuable resource for students scholars and practitioners in the field

Dialogue Analysis VII: Working with Dialogue Malcolm Coulthard, Janet Cotterill, Frances Rock, 2017-11-07 This volume brings together contributors from 30 universities in 22 countries It includes both theoretical papers which present new methods of analysis and practical studies of dialogue much of which was recorded in work settings a binary focus encapsulated in the title Working with Dialogue The settings from which the data was collected are diverse the media the courtroom the classroom the home and the clinic as well as from literary texts The book is ordered in such a way that each paper links theoretically methodologically and or topically with those on either side of it

Phraseology and Culture in English Paul Skandera, 2008-08-22 The proposition that there is a correlation between language and culture or culture specific ways of thinking can be traced back to the views of Herder and von Humboldt in the late 18th and early 19th centuries It is generally accepted today that a language especially its lexicon influences its speakers cultural patterns of thought and perception in various ways for example through a culture specific segmentation of the extralinguistic reality the frequency of occurrence of particular lexical items or the existence of

keywords or key word combinations revealing core cultural values The aim of this volume is to explore the cultural dimension of a wide range of preconstructed or semi preconstructed word combinations in English The 17 papers of the volume are divided into four sections focusing on particular lexemes e g enjoy and its collocates types of word combinations e g proverbs and similes use related varieties such as the language of tourism or answering machine messages and user related varieties such as Aboriginal English or African English The sections are preceded by a prologue tracing the development of the study of formulaic language and followed by an epilogue which draws together the threads laid out in the various papers The relation between language and culture in general has been explored in a number of important works over the past ten years However the study of the relation between English phraseology and culture in particular has been largely neglected This volume is the first book length publication devoted entirely to this topic

A Syntactic Study of Idioms Anna

Dąbrowska,2018-09-30 Since the general tendencies of present day English focus more on idiomatic usage it seems to be worth paying attention to the role phraseological units play in a language In the field of English phraseology linguists have shown a constant interest in idioms Undoubtedly not only are idioms an important part of the language and culture of the society but they also carry more impact than non idiomatic expressions because of their close identification with a particular language and culture It is difficult to speak or write English without using idioms especially while describing one's emotional or mental condition Therefore it is interesting and worthwhile to analyse both the language of phraseological units and emotions In other words this book focuses not only on idioms but also on one's psychological condition However its purpose is neither to discuss the issues of idioms and emotions from the psychological point of view nor provide a conceptual analysis of emotional metaphors Instead the book analyses idioms referring to psychological states in English from the perspective of syntax focusing particularly both on the syntactic structure of this specific set of verbal psych idioms and on the constraints on the way they are built Therefore the most current studies performed within the scope of the Phase Theory and the Idioms as Phases Hypothesis are chosen to address certain syntactic problems that idioms pose

Gradient Acceptability and Linguistic Theory Elaine Francis,2022 This volume examines the interpretation of gradient judgments of sentence acceptability in relation to theories of grammatical knowledge It uses experimental and corpus based research along with a range of case studies to argue for a new approach to this crucial problem
