Draft General Management Plan, Environmental Assessment United States. National Park Service, 1986

Innovative Initiatives in Growth Management and Open Space Preservation Robert Hines Wilson, 2003 Abundant open space is a defining characteristic of the United States It has affected the nation's history and cultural identity and during the last decade managing urban sprawl and protecting open space has become a major public policy challenge Today many state and local initiatives are attempting to answer an extraordinarily complex question How can communities accommodate new residents and businesses without sacrificing the important historic cultural ecological and social values within the built and natural environments that are so essential to quality of life In this report conducted by the LBJ School and the Community and Regional Planning Program of the UT Austin School of Architecture for the Congressional Research Service CRS the findings from 32 case studies in 15 states are presented The initiatives are evaluated in terms of issues addressed

approach adopted nature of intergovernmental relations and partnerships scale and role of the federal government Characteristics of effective cases are identified as well as future challenges and opportunities This report is the second of a two part research project for the CRS The first report State Growth Management and Open Space Preservation Policies see http://www.utexas.edu/lbj/pubs/books/prp_143.html identified and categorized state government initiatives concerning growth management and open space preservation enacted since 1990 This inventory revealed the national scope of such initiatives and identified the most active states from which the 32 case studies in the second year of the project were drawn

Statebuilding and State-Formation Berit Bliesemann de Guevara, 2012-02-20 This book examines the ways in which long term processes of state formation limit the possibilities for short term political projects of statebuilding Using process oriented approaches the contributing authors explore what happens when conscious efforts at statebuilding meet social contexts and are transformed into daily routines In order to explain their findings they also analyse the temporally and spatially broader structures of world society which shape the possibilities of statebuilding Statebuilding and State Formation includes a variety of case studies from post conflict societies in Africa Asia and Europe as well as the headquarters and branch offices of international agencies Drawing on various theoretical approaches from sociology and anthropology the contributors discuss external interventions as well as self led statebuilding projects This edited volume is divided into three parts Part I State Formation Violence and Political Economy Part II Governance Legitimacy and Practice in Statebuilding and State Formation Part III The International Self Statebuilders Institutional Logics Social Backgrounds and Subjectivities The book will be of great interest to students of statebuilding and intervention war and conflict studies international security and IR *Annual Report of the United States Civil Service Commission* United States Civil Service Commission, 1973
