The book follows this point of view in presenting the subject matter to the reader and aims to fulfill the need of a quality Indian text meeting the requirements of students and teachers in the faculties of psychology and education. The book aims to cover the field of educational psychology and strives to present a comprehensive book from the psychological point of view not available in India to study the subject in its appropriate perspective. In addition to the discussion of conventional topics, much attention has been bestowed on such vital issues as teaching for values, scholastic achievement, adjustment, disadvantaged students, discipline and guidance needs related to education.
