Differential Equations and Boundary Value Problems 6e Introduction to Differential Equations Using Sage David Joyner, Marshall Hampton, 2012-08-15 David Joyner and Marshall Hampton's lucid textbook explains differential equations using the free and open source mathematical software Sage. Since its release in 2005 Sage has acquired a substantial following among mathematicians but its first user was Joyner who is credited with helping famed mathematician William Stein turn the program into a usable and popular choice. Introduction to Differential Equations Using Sage extends Stein's work by creating a classroom tool that allows both differential equations and Sage to be taught concurrently. It's a creative and forward thinking approach to math instruction.
