Co-Creating Future Social Services Andrzej Klimczuk,Hilla Dolev,Robin Miller,Carola Orrego,2025-06-19 The European Social Services

Conference ESSC <https://essc.eu.org> is the annual flagship event of the European Social Network ESN <https://www.esn.eu.org> the leading network for public social services in Europe The ESSC is Europe s largest public social welfare policy and practice forum The previous edition was attended by almost 700 delegates in Malm Sweden in 2023 At the 32nd European Social Services Conference Antwerp Belgium 26-28 June 2024 we will discuss how we can co create community based social services with a specific focus on three thematic strands 1 Co creating Cities Social Inclusion 2 Co creating Responses to Manage the Future Workforce and 3 Co creating Digital Solutions for Social Inclusion This Research Topic welcomes papers

that will provide both theoretical insights and explorations as well as empirical evidence. Alongside learning from practice and responding to research findings we also want to understand challenge and refine the theoretical lenses which underpin our assumptions about social inclusion and diversity in relation to social policy and social services. Potential issues include three thematic strands but are not limited to:

- 1 Co-creating Cities: Social Inclusion, community care models in cities, fighting residential exclusion, neighborhood approaches, managing childhood and youth transitions in areas such as early childcare or child protection, support planning for people with disabilities in aspects related to work and social participation, support programs for ageing populations in fighting loneliness, promoting community support, managing diversity in the community co-production in local social services, planning delivery and evaluation, theories of community development and how these relate to different forms of social capital, recent theories and concepts in urban sociology, sociological practice, social policy and social work, theoretical approaches to social problems, issues and challenges including those underlined by the United Nations Sustainable Development Goals.
- 2 Co-creating Responses to Manage the Future Workforce: workforce planning and management strategies, training for co-production with people using services and their families, registration and accreditation programs, programs to break down gender stereotypes, innovation and digital programs supporting social care and support such as digital tools or forecasting scenarios, theories of professional motivations and how these can incentivize or deter person-centered and community care.
- 3 Co-creating Digital Solutions for Social Inclusion: prioritization of person-centered care and relationship-based practice, improvement of services, interaction, addressing digital readiness for practice, enhancing people's autonomy, increasing the data security, addressing ethical concerns and data protection needs, theoretical approaches to the digital divide and social inclusion, theories of leadership and how these translate to virtual contexts.

We are looking forward to selecting manuscripts demonstrating a wide range of approaches and forward thinking ideas to enhance personalization in social services. We want to provide an opportunity for presenters involved in the ESSC 2024 program covering both scholars and practitioners from various sectors to publish their papers. We also look forward to including articles from scholars and practitioners who did not present their work during our event. This Research Topic is fully open to practical and theoretical submissions that have not been included for presentation during the ESSC 2024. This Research Topic welcomes submissions of the following article types: Brief Research Report, Community Case Study, Conceptual Analysis, General Commentary, Hypothesis, Theory, Methods, Mini Review, Opinion, Original Research, Perspective, Policy and Practice Reviews, Review, and Study Protocol.
