THE ROLE AND THE IMPACT OF MICROFINANCE IN THE FINANCING OF RURAL AREAS IN ALBANIA

Abstract: The aim of this research project has been the assessment of the economic impact of microfinance on the household economic level in the rural area of Albania.

Keywords: microfinance, household, economic impact, income, expenditure.

Introduction

The main objective of microfinance is to offer possibilities to the family economy to improve and raise the family consume of goods. To measure the impact of the financial program such as micro-financing, we need to measure the results that this program has on the agents such as families, firms or the cities on which this program has been put in place. To value the economic effect of the micro-

finance program there are two known and widely used indicators (Hulme, 2000).

First, the income, including all the sources of income, is considered an important indicator in measuring the effects and changes after the involvement on the program. The income is comprised of all the possible sources for the economic activity of the family as the income from selling the agricultural products, the salaries ext. Using this indicator however to

Microfinance In Albania The Role Of Financial:

Measuring the Impact of Microcredit Programs in Albania Forcim Kola, 2017-01-06 This book highlights a range of perspectives concerning the economic and social impact of microfinance products especially microcredit on their clients lives scientifically analysing four distinct impact levels namely the individual level the household level the enterprise level and the community level Microcredit services enable low income people to move their family away from poverty and towards higher living standards by increasing their business activity improving their employment opportunities and contributing to sustainable economic growth and development Investigating the Albanian market by assessing the impact of Albanian microfinance programs at each of the four above mentioned impact levels this book explores whether being a client of MFIs microfinance programmes brings positive changes to their lives and their community The book uses various data collection techniques such as surveys interviews quantitative measurements of financial data and data processing methodologies including paired t tests and a comparison based data analysis methodology using a control group in order to support or reject the above hypothesis The Development of the Financial Sector in Southeast Europe Ingrid Matthäus-Maier, J. D.

Pischke, 2013-03-19 KfW has been assigned responsibility by the German government and several other donors for projects designed to reconstruct the financial landscapes of Southeast Europe These activities are recognized as quite successful in building sustainable financial institutions that serve the small end of the market with special emphasis on microenterprise and small business The KfW managed projects have contributed to the overall stability of financial sectors and to economic recovery and growth through employment creation and investment This book reviews experience gained and analyses the reasons for the successes achieved options for further improvement and scope for replicability in other transition and developing economies A particularly interesting feature is that relatively small amounts of public funds can catalyse financial markets in volatile environments **Proceedings of The 7th MAC 2016** group of authors, 2016-05-24 Proceedings of The

Subcommittee on Homeland Security, 2009 *Albania* International Monetary, 2025-01-24 Albania is on track to be one of the fastest growing economies in Europe in 2024 underpinned by tourism and prudent macroeconomic policies Despite this strong performance GDP per capita stands at just around a quarter of the EU 15 level The economy is also facing structural headwinds stemming from rapid population aging emigration low productivity and governance shortcomings **Banking and Monetary Policy in Eastern Europe** Adalbert Winkler, 2016-01-26 At the beginning of the transition process the

countries of Central and Eastern Europe faced the task of creating a functioning financial system where none had existed before. A decade later, high level practitioners and well known experts take stock of banking and monetary policy in the region, centring on the governance of banks, the spread of financial crisis and perspectives for monetary policy and banking sector development.

Competitiveness and Private Sector Development Western Balkans Competitiveness Outlook 2024: Albania OECD, 2024-06-26

Inclusive and sustainable economic growth in the six Western Balkan WB6 economies depends on greater economic competitiveness. Although the gap is closing gradually, the standards of living in WB6 are well below those of the OECD and EU. Accelerating the rate of socio economic convergence will require a holistic and growth oriented approach to policy making. This is the fourth study of the region, formerly under the title *Competitiveness in South East Europe*, and it comprehensively assesses policy reforms in the WB6 economies across 15 policy areas key to strengthening their competitiveness. It enables WB6 economies to compare economic performance against regional peers as well as EU OECD good practices and standards and to design future policies based on rich evidence and actionable policy recommendations. The regional profile presents assessment findings across five policy clusters crucial to accelerating socio economic convergence of the WB6 by fostering regional co operation, business environment, skills, infrastructure and connectivity, digital transformation and greening. Economy specific profiles complement the regional assessment, offering each WB6 economy an in depth analysis of their policies supporting competitiveness. They also track the implementation of the previous 2021 study's recommendations and provide additional ones tailored to the economies' evolving challenges. These recommendations aim to inform structural economic reforms and facilitate the region's socio economic convergence towards the standards of the EU and OECD.

EU Accession - Financial Sector Opportunities and Challenges for Southeast Europe Ingrid Matthäus-Maier, J. D. Pischke, 2005-10-04

A distinguished international group of central bankers, commercial bankers, entrepreneurs, academic advisors, policymakers and representatives of development finance organizations and donor agencies brought together by KfW, examines in this book the future of financial sector development in Southeast Europe. They explore ways to strengthen the banking sector in Southeast Europe, further promote SMEs and improve access to financial services in the region. Experts and decision makers assess the opportunities and challenges presented by the EU accession process and Basel II and offer candid insight into the expanding role of the private sector in developing the financial landscape. The perspectives presented in this book will prompt discussion and intellectual exchange that will serve as a new starting point for further successful cooperative initiatives.

Leveraging Financial Markets for Development Peter Volberding, 2020-09-28

This book investigates how development institutions created and promoted marketized development financial instruments to increase the speed and scope of assistance by leveraging private financial markets for development objectives. To attract private investors, donor governments agreed to bear the risk in these new instruments in order to mobilize investment during times of political crisis. In particular, this book contends that Germany's KfW played an outsized

role in the development of these new financial instruments particularly in microfinance banks and structured funds as KfW's unique institutional attributes and strong political support from the German government at critical junctures fostered financial innovation. Using over 70 interviews and a cache of newly released archival materials, this book documents how KfW and other development institutions created and promoted these marketized development financial instruments and how they have become a pillar of modern development policy.

The Oxford Handbook of Banking Allen N. Berger, Philip Molyneux, John O. S. Wilson, 2019-10-31. The Oxford Handbook of Banking Third Edition provides an overview and analysis of developments and research in this rapidly evolving field. Aimed at graduate students of economics, banking and finance academics, practitioners, regulators and policy makers, it strikes a balance between abstract theory, empirical analysis and practitioner and policy related material. Split into five distinct parts, The Oxford Handbook of Banking is a one stop source of relevant research in banking. It examines the theory of banking, bank operations and performance, regulatory and policy perspectives, macroeconomic perspectives in banking and international differences in banking structures and environments. Taking a global perspective, it examines banking systems in the United States, China, Japan, Australia and New Zealand, Africa, the European Union, transition countries of Europe and Latin America. Thematic issues covered include financial innovation and technological change, consumer and mortgage lending, Islamic banking and how banks influence real economic activity. Fully revised and now including brand new chapters on a range of geographical regions, bank bailouts and bail ins and behavioral economics amongst many other topics, this third edition of The Oxford Handbook of Banking provides readers with insights to seminal and contemporary research in banking and an opportunity to learn about the diversity of financial systems around the world.

International Financial Statistics, June 2018 International Monetary Fund. Statistics Dept., 2018-06-01. This paper discusses that Special Drawing Rights (SDRs) have been allocated by the IMF to members that are participants in the SDR Department at the time of allocation in proportion to their quotas in the IMF. Six allocations totaling 21.4 billion SDR were made by the IMF in 1970, 1971, 1972, 1979, 1980 and 1981. In addition, a general allocation of 161.2 billion SDR was made on August 28, 2009, and a special allocation of 21.5 billion SDR was made on September 9, 2009. The IMF cannot allocate SDRs to itself but can receive them from members through various financial transactions and operations. Entities authorized to conduct transactions in SDRs are the IMF itself, participants in the SDR Department and other prescribed holders. The SDR can be used for a wide range of transactions and operations including acquiring other members' currencies, settling financial obligations, making donations and extending loans.

Smallholders and family farms in Albania - Country study report 2019 Food and Agriculture Organization of the United Nations, 2020-06-01. The background for conducting country studies on the challenges, needs and constraints of smallholders and family farms in seven countries has been a wish to further strengthen the Regional Initiative and develop the initiative towards a stronger programmatic approach at both the regional and country levels. To provide support to smallholders and family farms, there

has been a need to develop a better understanding and knowledge platform of the main challenges needs and constraints of smallholders and family farms in the specific country context Even though many of the challenges are the same throughout the region there are still significant variations among the countries it is important to recognize and understand these variations when designing support to smallholders and family farms in each specific country It has been the objectives of the country studies first to analyze the development trend and current state of smallholders and family farms in the specific country second to study the current political priorities and policies affecting smallholders and family farms and finally based on the conclusions made to provide recommendations mainly at the policy level on how to further support the development of commercial family farms and at the same time ensure in general inclusive growth improved rural livelihood for women and men and the reduction of rural poverty for all It is hoped that each country study will not only be relevant for FAO but also for governments donors and other international organizations when formulating policy and preparing programmes
