Essays on The Demise of Neoliberalism Bülent Somay,2021-08-24 What seems to be happening throughout the last decade is the gradual invalidation and dissolution of what we used to call Truth and hence the disruption and gradual dissolution of what Foucault had called the existing hierarchical Regime of Truth What remains is not what Marx had hoped to be a more egalitarian regime in which the educators themselves are also educated but rather a Humpty Dumpty Regime where Truth is whatever the Humpty Dumpty in power wants it to be This book argues that this is an unmediated outcome of the profound social cultural and economic crisis of neoliberal capitalism and its political corollary the meteoric rise of populism and authoritarianism not only in the so called developing countries but throughout the entire globe CONTENTS PREFACE INTRODUCTION AFTER NEOLIBERALISM THE FLOOD CHAPTER 1 ON RADICAL AMBIGUITY CHAPTER 2 THE MIDAS BLESSING TURNING COMMODITIES INTO GIFTS CHAPTER 3 THE END OF TRUTH AS WE KNOW IT THE DISINTEGRATION OF THE UNIVERSITY DISCOURSE CHAPTER 4 THE GAME OF THRONES AS A FAILED ATTEMPT AT UNIVERSAL POPULISM CHAPTER 5 THE PSYCHOPOLITICS OF THE ENTITLED VICTIM THE COMING OF AGE OF CONTEMPORARY POPULISM

The Great Music City Andrea Baker,2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity

Beyond the Instrumentalised Economy Garrett Thomson,2025-01-27 The concept of an economy requires us to characterise what human life and society are fundamentally about or what is valuable and why This includes our social relations with each other and to the ecosystems we live in as well as our happiness well being and flourishing Beyond the Instrumentalised Economy defines what work consumption and the use of natural resources would look like if they were not instrumentalised This enables the reader to see how a company would work in a non instrumentalised economy and what would constitute a non instrumentalised market Based on this the book provides insight concerning how investment would work in such an economy and the main features of a non instrumentalised financial system

Gustafson, 2024-05-28 In The Brothers Karamazov Fyodor Dostoevsky proposes ministry as the way to resist and overcome the world's evil He employs two plotlines to do so The action plot concerns the events surrounding the murder of Fyodor Karamazov All evidence points to Dmitri Karamazov Rational circumstantial evidence convicts him yet the reader knows he is innocent The ministry plot occurs in this dark context where small acts of love are

performed by The Elder Zosima Alyosha Karamazov and many others These acts of love all answer this unspoken question What can be said and done in Jesus name that opens the future to new possibilities in contexts heretofore deemed closed and without hope Asking and answering this question is the essence of ministry and since the question can be asked in any context ministry is possible anywhere Dostoevsky's unabashed antisemitism however undermines his brilliant analysis The concluding chapters document how unconfessed sins like antisemitism exert a death dealing power that undermines our cultures our communities and our ministries The Freedom to Choose Life shows how ministry resists and overcomes evil by these small acts of love and by the global effects of repenting of humanity's unconfessed sins Rich Crime, Poor Crime Colin Webster, 2023-03-16 An important and challenging book comprehensively spanning across the establishment of power systems Rich Crime Poor Crime is a vital read for academics professionals and those interested in the fields of history sociology criminology and politics **Neuroscience for Organizational Change** Hilary Scarlett, 2019-07-03 Organizational change can be unpredictable and stressful With a better understanding of what our brains need to focus organizations can increase employee engagement productivity and well being to successfully manage periods of uncertainty Drawing on the latest scientific research and verified by an independent neuroscientist Neuroscience for Organizational Change explores the need for social connection at work how best to manage emotions and reduce bias in decision making and why we need communication involvement and storytelling to help us through change Practical tips and suggestions can be found throughout as well as examples of how these insights have been applied at organizations such as Lloyds Banking Group and GCHQ The book also sets out a practical science based planning model SPACES to enhance engagement This updated second edition of Neuroscience for Organizational Change contains new chapters on planning the working day with the brain in mind and on overcoming the difficulties related to behavioural change It also features up to the minute wider content reflecting the latest insights and developments and updated case studies from the first edition which give a long term view of the benefits of applying neuroscience in organizations The Palm Springs School: Desert Modernism 1934-1975 Alan Hess, 2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town's small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to

reflect a region's culture economy and distinctive atmosphere Architects here responded to nature's climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography

Occult Hunting and Supernatural Play in Japan Laura Miller, 2024-08-31 In Japan today women are the primary drivers of religious re-enchantment and they are exerting pressure on shrines temples and media industries to accommodate their interests and aesthetic tastes Employing a semantically broad meaning of occult to include the mysterious or supernatural Laura Miller examines how it manifests to offer avenues of self-exploration and spiritual capital that fundamentally appeal to women Female seekers have had a major impact on the fashioning and marketing of spiritual sites texts and objects often through encoding the kawaii or cute aesthetic Miller makes the case that the gendered nature of occult hunting has been neglected in research and that greater attention to gendered perspectives reveals significant facets of sociality and recreation Written from an interdisciplinary cultural studies perspective *Occult Hunting and Supernatural Play in Japan* interlaces history art literature religion media studies and anthropology to explore ubiquitous yet understudied activities such as having one's fortune told visiting powerspots locations thought to hold exceptional supernatural energy and playing with new types of tarot decks Book chapters also focus on material religion including objects like good luck amulets and votive plaques Taoist paper talismans pilgrim stamps and ancient curved beads called magatama Tracing their histories and transformations Miller insists that these forms of visual and material religion and their related activities are neither trivial nor simply commercial gambits Rather they provide insights into the realms of creative exploration pleasure and spiritual development in the lives of girls and young women

Statecraft and Foreign Policy Subrata K. Mitra, Jivanta Schottli, Markus Pauli, 2023-12-15 *Statecraft and Foreign Policy* provides an in-depth understanding of India's rise as an economic and political power and its role in addressing global challenges from climate change to international trade security health and energy It focuses on India's statecraft and foreign policy from its independence in 1947 to current politics and policies in 2023 75 years later The book has three main sections focusing on the evolution of India's foreign policy after Independence its transformation after the Cold War and as India's economic and political power grew and India's engagement with major powers like the US China and Russia neighbouring countries and international institutions The analysis draws on International Relations Theory Foreign Policy Analysis and the work of classic Indian thinkers like Kautilya It combines evaluating domestic and international influences on India's statecraft and foreign policy The authors introduce a toolbox for studying the making and the outcomes of Foreign Policy based on an analysis of interests perceptions and values This analytical framework goes beyond the Indian case study and can be applied to International Relations Comparative Politics and Foreign Policy Analysis Praise for *Statecraft and Foreign Policy* Mitra Schottli and Pauli have crafted a

remarkably deep analysis of India's foreign policy. They have not only reviewed the details of India's foreign affairs itself, no small task, but they have done so in an analytic framework grounded in a profound evaluation of the intertwining of domestic and foreign policy choices and compunctions. As contemporary India has emerged as one of the world's great powers, great in every sense of that term, this book is essential reading for policymakers, diplomats, scholars, and students of Indian affairs and world affairs. *Statecraft and Foreign Policy* is a tour de force that will define how we think of India in global politics for decades to come. Bruce Bueno de Mesquita, Julius Silver Professor of Politics, New York University, USA. A sweeping overview in holistic perspective. Covers independent India's 75 years, narrating policy development and diplomatic actions. Incisive, balanced, and insightful. Kisan S. Rana, Emeritus Professor and Former Ambassador of India to Germany. This book offers both a wide compass of Indian foreign policy across its 76 years, but also a focused lens that assesses change and continuity across different periods and varied dimensions of foreign policy. Domestic and international variables are brought together in the analysis, with a focus on how the Prime Ministers think about and visualize their foreign policies. Each chapter provides a synoptic assessment, including additional readings, making it an excellent reference that brings analysis of foreign policy up to date. The discussions of India's multilateral engagements on trade, climate change, and international negotiations are a valuable addition to usual bilateral discussions of foreign policies. Aseema Sinha, Wagener Chair of South Asian Politics and George R. Roberts Fellow at Claremont McKenna College in California, USA. The authors have done the almost impossible; they have provided a synopsis of the most important phases, relationships, and issues that mark the country's policies beyond its borders. And they have done it engagingly and with sophistication, free of jargon and abstruse theorizing, and yet with a penetrating point of view. Professor Kanti Bajpai, Lee Kuan Yew School of Public Policy at the National University of Singapore.
