**Handbook of Asian Finance** David Lee Kuo Chuen, Greg N. Gregoriou, 2014-05-12 Asia's miraculous recovery from the 1997 crisis ushered in unexpected transformations to its economies and financial sectors. The reasons many Asian countries are growing above 6% with double digit growth for a year or two in between are investigated by this extensive research collection. The Handbook of Asian Finance covers the most interesting issues raised by these growth rates. From real estate prices and the effects of trading technologies for practitioners to tax evasion, market manipulation and corporate governance issues, expert scholars analyze the ways that the region is performing. Offering broader and deeper coverage than other handbooks, the Handbook of Asian Finance explains what is going on in Asia today. Devotes significant attention to the systematic risk created by banks' exposure to links between real estate and other sectors. Explores the implications implicit in the expansion of sovereign funds and the growth of the hedge fund and real estate fund management industries. Investigates the innovations in technology that have ushered in faster capital flow and larger trading volumes.

**Islamic Banking in Pakistan** Feisal Khan, 2015-12-22 Islamic Banking and Finance (IBF) has become a growing force over the past three decades with Pakistan being one of the IBF pioneers by converting to an interest free banking system in 1985. However, since independence in 1947, there has been continual tension over Pakistan's essential character between Islamic Minimalists who favour a Modernist interpretation of Islam and those who favour an Islamic Maximalist interpretation that sees Pakistan as a model Islamic state. This book analyses the push to Islamize Pakistan and its financial system by Islamic revivalists following the early 1947 debates in the original Constituent Assembly to the final 2002 ruling on IBF of the Shariat Appellate Bench of the Pakistan Supreme Court. It examines the practice and theory behind contemporary Islamic Shariah compliant banking. It offers extensive interviews with Pakistani Islamic bankers on the state of their industry and how they see it developing and provides analysis on how the Islamic banks' customers differ from those of conventional ones. Presenting a critical analysis of Pakistan's IBF experience and offering a new insight into Pakistan's banking industry that illustrates broader political and social trends in the country, this book will
