

Guidance: Parts 1–4

About the paper

The Reading and Use of English paper lasts for one hour fifteen minutes. It contains seven parts, and has a total of fifty-two questions. There are texts of varying lengths, with a range of text types and styles of writing, for example extracts from newspapers, magazines, websites and novels.

Part 1

In Part 1, you read a short text and complete a multiple-choice cloze task. Eight words or phrases have been removed from the text. For each gap, you have to choose from four options the word or phrase which fits best.

Part 2

In Part 2, you read a short text and complete an open cloze task. Eight words have been removed from the text. You have to complete the gaps.

Part 3

In Part 3, you read a short text and complete a word-formation task. Eight words have been removed from the text. You are given the base form of each missing word and you have to put that word into the correct form to fit the gap.

Part 4

In Part 4, you read six pairs of sentences and complete a key-word transformation task. The pairs of sentences have the same meaning, but are expressed in different ways. Two to five words have been removed from the second sentence, and one of these words, the key word, is given as a prompt. You have to complete the second sentence, using the key word.

How to do the paper

Part 1

- Read the text, ignoring the gaps, to get a general understanding.
- Only one of the options (A–D) fits the gap.
- Check the words before and after the gap, e.g. some words can only be followed by one particular preposition.
- Some questions focus on linking words and so test your understanding of the whole passage.
- If you are not sure which word to choose, decide which options are clearly wrong, and then see which are left. If you're still not sure, you should guess. You do not lose marks for wrong answers, and your guess may be right.
- When you have finished, read your completed text again and check that it makes sense.

Part 2

- Read the text, ignoring the gaps, to get a general understanding.
- Think about the missing words. Each gap only needs one word, usually a grammatical word, e.g. pronoun, linker, preposition, etc. The gaps will not test your knowledge of topic vocabulary.
- Carefully read the text around each gap and think about what type of word is missing, e.g. preposition, pronoun, part of a fixed expression, etc.
- When you have finished, read your completed text again and check that it makes sense.

Part 3

- Read the text, ignoring the gaps, to get a general understanding.
- Decide which type of word is needed in each gap, e.g. noun, adjective, adverb. Look at the whole sentence, not just at the line including the gap.
- Look at the word in capitals to the right of the gap. You may need to add a prefix or suffix, or make other changes. More than one change may be required.
- Check to see if nouns should be singular or plural.
- When you have finished, read your completed text again and check that it makes sense.

Part 4

- Look at the key word. What type of word is it? What usually follows it, e.g. an infinitive, a preposition, or could it be part of a phrasal verb?
- Think about the other words that need to change in the new word order, e.g. an adjective may become a noun or vice versa.
- Your answer may include words or expressions not used in the first sentence, but these must express exactly the same idea. Do not include new information or change the information.
- Remember that contracted words count as two words, e.g. *won't* = *will not*.
