Feminist Literary Theory and Criticism Sandra M. Gilbert, Susan Gubar, 2007 With selections by more than 100 writers and scholars the Reader is an ideal companion for literature surveys where critical and theoretical texts are featured as well as a rich flexible core text for advanced courses in feminist theory and criticism The Reader can be packaged with the Norton Anthology of Literature by Women Third Edition at a substantial discount      Feminisms Redux Diane Price Herndl, 2009

*Literary Theory: The Basics* Hans Bertens, 2017-07-14 This third edition of Hans Bertens bestselling book is an essential guide to the often confusing and complicated world of literary theory Exploring a broad range of topics from Marxist and feminist criticism to postmodernism and new historicism *Literary Theory The Basics* covers contemporary topics including reception theory and reader response theory the new criticism of postmodernism the after theory debate post humanism biopolitics and animal studies aesthetics *Literary Theory The Basics* helps readers to approach the many theories and debates in this field with confidence Now with updated case studies and further reading this is an essential purchase for anyone who strives to understand literary theory today      Weltenvielfalt Pablo Valdivia Orozco, 2013-11-27 Diese Studie

entwickelt mit einem lateinamerikanistischen Korpus das Motiv der Weltenvielfalt als einen gattungskultur und fiktionstheoretischen Begriff des modernen Romans Seine Welt wie sich immer schon im Kontext einer anderen Diese historisch entfaltete These hat ihre theoretische Entsprechung darin dass die neuzeitliche Emergenz des Romans eine gattungstheoretische Wende inauguriert Anders als genuine Poetik hat es Gattungstheorie immer auch mit einer Vor Geschichte abseits der Literatur zu tun      *Contextualizing Woman and Her Struggles: A Critical Study of Indira Goswami's Five Novellas about Women* P.V. LAXMIPRASAD , 2021-09-09      **Feminism as World Literature** Robin Truth

Goodman, 2022-11-03 The conventional lineage of World Literature starts with Goethe and moves through Marx Said Moretti and Damrosch among others What if there is another way to trace the lineage starting with Simone de Beauvoir and moving through Hannah Arendt Assia Djebar Octavia Butler Donna Haraway Karen Barad and Gayatri Spivak What ideas and issues get left out of the current foundations that have institutionalized World Literature and what can be added challenged or changed with this tweaking of the referential terminology *Feminism as World Literature* redefines the thematic and theoretical contents of World Literature in feminist terms as well as rethinking feminist terms analyses frameworks and concepts in a World Literature context Other ideas built into World Literature and its criticism are viewed here by feminist framings including the environment technology immigration translation work race governance image sound religion affect violence media future and history The authors recognize genres strategies and themes of World Literature that demonstrate feminism as integral to the world making gestures of literary form and production In other words this volume looks to readings and modes of reading that expose how the historical worldliness of texts allows for feminist interventions that might not sit clearly or comfortably on the surfaces      **The Case for the Humanities** Eric Touya de Marenne, 2016-12-01

Countering the perception that the humanities are unessential this volume contends that their well being has not only academic but also cultural political and existential ramifications Our technologically driven world possesses the means of its own destruction while economic and financial policies undermine the very existence of our democracy At the same time the postmodern and post human age fundamentally challenges our ability and legitimacy to conceive future ideals It is within this context that the humanities provide essential paths through which the teaching and knowledge of other academic fields such as STEM and economics must be re envisioned In short the humanities must be brought back to the center of academic life The political and pedagogical implications of this interdisciplinary study thus entail a renewed critique to rethink the relation between higher education society and the world at large politically economically scientifically and technologically and the importance of the humanities within it At the heart of this reconsideration the humanities and humanity s fate and future become one
