

"It's actually really simple - once he's properly positioned and restrained, a few loops of sterilized surgical cutting wire go around the base of his scrotum. The wire's razor sharp, so some quick tension is it all it takes to get a clean cut. The testicles and sack plop neatly into the collection pan, and I'm off to my next patient while the other girls handle cleanup."

environment generated by the War on Terror and many other topics      *Vampires and Zombies* Dorothea Fischer-Hornung, Monika Mueller, 2016-02-02 The undead are very much alive in contemporary entertainment and lore. Indeed, vampires and zombies have garnered attention in print media, cinema, and on television. The vampire with roots in medieval European folklore and the zombie with origins in Afro Caribbean mythology have both undergone significant transformations in global culture, proliferating as deviant representatives of the zeitgeist. As this volume demonstrates, the distribution of vampires and zombies across time and space has revealed these undead figures to carry multiple meanings. Of all monsters, vampires and zombies seem to be the trendiest, the most regularly incarnate of the undead, and the monsters most frequently represented in the media and pop culture. Moreover, both figures have experienced radical reinterpretations. If in the past vampires were evil blood sucking exploiters and zombies were brainless victims, they now have metamorphosed into kinder and gentler blood sucking vampires and crueler, more relentless flesh eating zombies. Although the portrayals of both vampires and zombies can be traced back to specific regions and predate mass media, the introduction of mass distribution through film and game technologies has significantly modified their depiction over time and in new environments. Among other topics, contributors discuss zombies in Thai films, vampire novels of Mexico, and undead avatars in horror videogames. This volume, with scholars from different national and cultural backgrounds, explores the transformations that the vampire and zombie figures undergo when they travel globally and through various media and cultures      **King Me** Steve Farrar, 2006-02-01 Using kings of the Old Testament as character studies, Steve Farrar examines the critical role a father plays in preparing his son to become a godly man. What separated the good kings from the bad kings was a father who made time commitments to mentor his son by modeling biblical manhood. Do you want your son to become a man of regal character? Then this book is for you      **Hemingway's Fetishism** Carl P. Eby, 1999-01-01 Demonstrates in painstaking detail and with reference to stunning new archival evidence how fetishism was crucial to the construction and negotiation of identity and gender in Hemingway's life and fiction      **Alien Zone II** Annette Kuhn, 1999 Science fiction cinema is too often left at the margins of serious critical film study. While a handful of films are the subject of general theoretical works, the genre as a whole, and especially its cinematic aspects, are neglected in favor of straightforward considerations of character and narrative. *Alien Zone 2* redresses this imbalance by looking at the ways in which contemporary science fiction cinema transforms the themes and conventions of the genre itself. In many ways a companion volume to *Alien Zone*, it pursues theoretical issues opened up in the earlier book but also explores fresh territory with an eye that is both reflective and interventionist. Visionary cities, psycho cybernetics, internet fandom, the convergence of science fiction literature and science fiction film, and bodybuilder stardom are all brought under its gaze. Contributors: Will Brooker, Scott Bukatman, Catherine Constable, David Desser, Barry Keith Grant, Brooks Landon, Linda Mizejewski, Vivian Sobchack, Claudia Springer, Janet Staiger, Garrett Stewart      *Der natürliche Weg zum harmonischen Zyklus* Nicole Jardim, 2021-05-16 Ein Buch, das alle Frauen lesen sollten. *Eunuchs and Castrati* Katherine Crawford, 2018-07-17 Eunuchs and Castrati examines the enduring fascination among historians literary critics musicologists and other scholars around the figure of the castrate Specifically the book asks what influence such fascination had on the development and delineation of modern ideas around sexuality and physical impairment Ranging from Greco Roman times to the twenty first century Katherine Crawford brings together travel accounts diplomatic records and fictional sources as well as existing scholarship to demonstrate how early modern interlocutors reacted to and depicted castrates She reveals how medicine and law operated to maintain the

privileges of bodily integrity and created and extended prejudice against those without it. In consequence, castrates were constructed as gender deviant, disabled social subjects and demarcated as inferior. Early modern cultural loci then reinforced these perceptions, encouraging an othering of castrates in public contexts. These extensive, almost obsessive accounts of appearance, social propensities, and gender characteristics of castrated men reveal the historical lineages of sexual stigma and hostility towards gender non-normative and physically impaired persons. For Crawford, they are the roots of sexual and physical prejudices that remain embedded in the western experience today.

Masculine Identity in the Fiction of the Arab East since 1967 Samira Aghacy, 2009-12-08. This book offers an exploration of masculinity in the literature of the Arab East: Lebanon, Jordan, Palestine, Syria, and Iraq, in the context of a specific set of anxieties about gender roles and sexuality in Arab societies. While gender studies in the area have focused primarily on the situation of women, the treatment of Arab men as gendered subjects has fallen behind. Samira Aghacy's rich analysis presents gender relations not within a fixed biological mold but rather as a complex phenomenon fraught with ambivalence and operating within particular historical and geopolitical settings. Through a series of close readings of twenty contemporary Arabic novels, Aghacy presents a mosaic of masculinities that challenges the generally held view of an essentialized, archetypal Arab man and that mirrors a contested vision of manliness where men figure in diverse sociocultural environments. This groundbreaking work reveals the volatile nature of masculinity and its inextricability from femininity.
