The Politics of Development in Morocco Sylvia I. Bergh, 2017-01-30 Since the mid 1990s Morocco has sought to present itself as a model of genuine and gradual reform with decentralisation as a key tenet of this Here Sylvia Bergh investigates the dynamics of popular participation and local governance testing the extent to which the current structure builds local capacity or whether it is in fact a tool for soft state control She narrates the realities of local administration and civil society to shed critical light on questions of democratic transition in North Africa Her assessment of decentralisation and participatory development projects in rural Morocco and

the legal and policy frameworks in which they operate leads to the conclusion that they have generally not yet led to an expansion of a civil society able to build local capacity or enhance bottom up empowerment Grounded in an approach of the anthropology of policy this book makes an important contribution to literature on the democratisation development and governance in North Africa **Hearings** United States.
