**T-Byte Platforms & Applications** V-Gupta, 2019-11-27 This document brings together a set of latest data points and publicly available information relevant for Platforms Applications. We are very excited to share this content and believe that readers will benefit immensely from this periodic publication. *Connected Planning* Ron Dimon, 2021-04-06 Ron Dimon's thought leading second edition of the book originally entitled *Enterprise Performance Management Done Right* published in 2012 is a practical roadmap for using Connected Planning to develop an agile organization and to navigate the complex Enterprise Performance Management landscape. According to esteemed author, researcher and Management professor Dr. Christopher Neck, "In the same way that one needs to be self-leading to finish a grueling marathon, an organization must be self-leading in order to execute on its plans in an efficient and effective manner. What drives self-leadership at all levels in an organization? The people within the organization, of course, and those people must be involved in the planning occurring in an organization. Without a plan, an organization has no direction. Since 2012, much has changed in the world of connecting strategy with improved performance; new cloud-based memory technologies have been adopted by the largest organizations in the world. This book is for CFOs, CIOs, their direct reports, and any organizational visionary or aspiring leader who wants to bring it all together and create an actionable vision and plan for improving readiness, resilience, and performance." **CFO Insights** C. Cristian Wulf, 2006-03-20 The benefits Carrefour achieved have been substantially in excess of predictions. The Shared Service accounting centers enabled streamlined processes, lowered costs, and introduced standard processes, a standard system, and standard data for a global company. The new infrastructure can support rapid expansion and can add new stores with the flip of a switch. From a systems point of view, Carrefour now has a factory in place.
