Asean-5 Cluster Report International Monetary Fund. Asia and Pacific Dept, 2016-06-30 This paper examines the evolution of monetary policy frameworks of the Association of Southeast Asian Nations ASEAN 5 economies with particular focus on changes since the Asian financial crisis and the more recent period of unconventional monetary policies in advanced economies Monetary policy frameworks of the ASEAN 5 economies have on the whole performed well since the crisis delivering both price and financial stability during a period of significant domestic and regional transformation and global macroeconomic and financial turmoil Not surprisingly therefore successful outcomes in most cases entailed significant changes to operating frameworks and refinement of policy objectives The Report: Indonesia 2017 Oxford Business Group, 2016-11-10 Although Chinese and global demand low commodity prices and rising wages will continue to challenge trade growth in 2016 Indonesia remains on a positive trajectory Rising domestic demand increasing liberalization measures improvements to the investment climate and a shift towards value added production will bolster both exports and investment At the same time new trade agreements with the world's largest economies look set to drive long term trade expansion Prudent government policy an ambitious reform agenda and rising recognition of the role of the private sector should help to

keep investment and trade stable in 2016 and despite exports and growth have dipped in recent years the country is well positioned to make the crucible transformation from a consumption to investment based economy

Carbon Pricing and Fossil Fuel Subsidy Rationalization Tool Kit Rachael Jonassen, Mikael Skou Andersen, Jacqueline Cottrell, Sandeep Bhattacharya, 2023-07-01 This tool kit offers a step by step guide for economies in Asia and the Pacific looking to design build and implement emission trading systems ETS to help speed up their transition to a greener more inclusive future Using case studies to illustrate best practices and lessons learned by countries including Viet Nam and India it explains the need to design robust legal frameworks before setting up ETSs It outlines carbon taxes analyzes fossil fuel subsidy rationalization and shows why securing support from stakeholders is key for countries planning to implement ETS programs to help meet their climate targets

The Report: Indonesia 2018 Oliver Cornock, 2018 In 2018 the Indonesian economy recorded a growth rate of 5.2% the highest in five years This was in spite of a slump in the rupiah and a trade imbalance and took place against a backdrop of rising US interest rates and deteriorating trade relations between the world's two biggest economies The country's emphasis on industrialisation and infrastructure development is laying the foundations for continued economic growth Moreover the archipelago's growing middle class population geographical position and human capital development agenda alongside progress in free trade agreements make it a strong contender on the global economic stage The country holds considerable potential for developing entrepreneurial and creative prowess already being home to four unicorn startups Investors have continued to look beyond traditional destinations with emerging cities like Surabaya and Palembang showing strong possibilities for economic growth Although the outcome of the April 2019 national election will determine the course of further infrastructure development and tax reforms the future looks promising with predictions of continued growth accompanied by stable inflation

Towards responsible and inclusive financing of the palm oil sector

Kusumaningtyas, R., van Gelder, J.W., 2017-10-04 The global palm oil sector faces ongoing threats to sustainability caused by deforestation peatland development labor rights violations and land right conflicts Additionally integrating smallholders into sustainable palm oil supply chains continues to be a challenge for the industry Financial service providers FSPs could play a role in stimulating sustainability commitments from the palm oil companies they finance Their potential influence stems from their capacity to set environmental social and governance ESG conditions for financial services This research shows that European and US FSPs are further along than their counterparts in Asia in adopting policies that include ESG risk assessments as part of the process for providing financial services However attention to smallholder inclusion is insufficient in the policies of all FSPs included in this report Differences between European and US versus Asian FSPs in adopting ESG standards as well as the unique markets they finance present a risk that two parallel but separate financial systems could emerge Efforts by both government and nongovernmental organizations should emphasize the prevention of a two tiered marketplace with different quality requirements for palm oil All actors in this sector still require a significant shift in thinking

on the benefits of including ESG standards in cultivation and production processes In palm oil producing countries the lack of specific banking regulations emphasizing sustainability concerns regarding the sector forms a further hindrance to positive developments

The TESLA revolution Willem Middelkoop, Rembrandt Koppelaar, 2017-04-05 We burnt our oil supplies up so fast that the era of cheap oil is over Finally there is a widespread recognition for the need to move to a post fossil fuel age Yet promises of too cheap to meter nuclear household power stations the hydrogen economy or abundant bio based fuels all remain dreams Is there still hope that humanity can bring about a renewable energy revolution Or will fossil fuels remain the driving force behind energy expansion and global politics The Tesla Revolution will help to understand the future direction of our energy systems In tracing rapid technological advances in batteries and solar technologies energy flows in economies geopolitical repercussions and the political decisions present and missing to bring an energy revolution ever closer A picture emerges of a transition that in our lifespans will reshape economies global power relations and even affect day to day lives and values
