Developing Materials for Language Teaching Brian Tomlinson, 2003-12-02 In this book we offer the informed and reflective practitioner as the ideal agent for mediating between the practice and theory of language teaching. Some of the contributors might be labelled teachers, some materials developers, some applied linguists, some teacher trainers and some publishers but all of them share four things in common: they have all had experience as teachers of a second or foreign language; they have all contributed to the development of second language materials; they are all well informed about developments in linguistic and psycholinguistic theory; and they all have respect for the teacher as the person with the power to decide what actually happens in the classroom. Second Language Acquisition in Action Andrea Nava, Luciana Pedrazzini, 2018-03-22 Despite the key role played by second language acquisition (SLA) courses in linguistics teacher education and language teaching degrees, participants often struggle to bridge the gap between SLA theories and their many applications in the classroom. In order to overcome the transfer problem from theory to practice, Andrea Nava and Luciana Pedrazzini present SLA principles through the actions and words of teachers and learners. *Second Language Acquisition in Action* identifies eight important SLA principles and involves readers in an experiential approach which enables them to explore these principles in action. Each chapter is structured around three stages: experience and reflection, conceptualisation and restructuring, and planning. Discussion questions and tasks represent the core of the book. These help readers in the process of experiencing SLA research and provide them with opportunities to try their hands at different areas of language teachers' professional expertise. Aimed at those on applied linguistics MA courses, TESOL/EFL trainees and in-service teachers, *Second Language*

Acquisition in Action features Key Questions at the start of each chapter Data based tasks to foster reflection and to help bridge the gap between theory and practice Audiovisual extracts of lessons on an accompanying website Further Reading suggestions at the end of each chapter
