A Pragmatist's View of the Economic Warfare Being Waged
by the Republican Party against the Great American Middle Class

HOWARD GREEN

"Hard-hitting, clarifying, and as timely as the next US election cycle, this book cuts through the rhetoric and presents a sophisticated yet easy-to-read assessment of what did happen and what now needs to happen at the place where our economy and our political system intersect."

— DAN REINGOLD, AUTHOR OF CONFESSIONS OF A WALL STREET ANALYST

Fools And Knaves A Pragmatists View Of The Economic Warfare Being Waged By The Republican Party Against The Great American Middle Class:

Fools and Knaves Howard Green, 2014-03 Republicans have proven adept at getting middle class voters to vote against their own pocketbooks George W Bush and his advisors promised economic growth jobs and an ownership society but delivered a housing finance bubble Wall Street profits fueled by fraud a recession budget deficits low economic growth massive job losses and upward transfers of middle class wealth In Fools and Knaves author Howard Green explores both the short term and long term effects of Republican controlled government on the nation When the Republicans left town they handed the tab for clean up to taxpayers and then obstructed every effort to repair the economy that they broke What's more they now favor cuts to government programs for the poor government shutdowns and threats of credit default The financial crisis of 2007 was no accident it flowed from GOP policies that were intended to benefit the 1 percent as well as themselves Republicans succeeded beyond their wildest dreams and today the wealthiest among us pocket virtually all the gains associated with the rebuilding of our economy Meanwhile the middle class suffers home foreclosures job losses and reductions in real income Fools and Knaves makes it clear that while appealing largely to social conservatives and older white blue collar voters Republicans make promises to the middle class but actually deliver results only to the wealthy Everyone else especially those who are younger better educated female and from minority households is now getting the message Republicans have nothing to offer them

The Servant Economy Jeff Faux, 2012-05-17 Renowned economist Jeff Faux explains why neither party's leaders have a plan to remedy America's unemployment inequality or long economic slide America's political and economic elite spent so long making such terrible decisions that they caused the collapse of 2008 So how can they continue down the same road The simple answer that no in charge one wants to publicly acknowledge because things are still pretty great for the people who run America It was an accident of history Jeff Faux explains that after World War II the U S could afford a prosperous middle class a dominant military and a booming economic elite at the same time For the past three decades all three have been competing with the middle class always losing Soon the military will decline as well The most plausible projections Faux explores foresee a future economy nearly devoid of production and exports with the most profitable industries existing to solely to serve the wealthiest 1% The author's last book The Global Class War sold over 20 000 copies by correctly predicting the permanent decline of our debt burdened middle class at the hands of our offshoring executives out of control financiers and their friends in Washington Since his last book Faux is repeatedly asked what either party will do to face these mounting crises After looking over actual policies proposed plans non partisan reports and think tank papers his astonishing conclusion more of the same

Killer Politics Ed Schultz, 2010-05-17 The middle class where the greatness of this nation is rooted is under siege by an increasingly unethical system managed by economic vampires who are sucking the lifeblood out of the American family and ripping the heart out of democracy itself Big money

and the politicians who are swayed by it play both parties against each other using this false battle to distract most of us from the real war which is a war against the American family This is it folks the moment of truth This will be the moment historians will look back upon and either say it was the moment this great ship of state corrected its course or the moment it sailed completely away from its democratic ideals To succeed we have to reach back and rediscover our greatness Progress may not come as fast as we in our impatience and impertinence demand But if we are patient and persistent it will come All good things in life require a heavy lift so roll up your sleeves We are not done yet from Killer Politics According to a 2008 Pew Report more than half of all Americans self identify as middle class but the actual number of Americans with middle class incomes is declining The middle class is going away As increasing numbers of Americans are faced with obstacles to education health care jobs and equity the middle class as a financial bracket is being replaced by the middle class as little more than a state of mind The richest Americans are growing exponentially wealthier while the rest of us struggle to bear the financial and emotional burdens of an increasingly broken system In Killer Politics Ed Schultz pulls the wool back from our eyes shows us what the state of the middle class really is and gives us the tools we need to fight back

Class War in America Charles M. Kelly,2000 **Up from Conservatism** Michael Lind,2013-08-06 For nearly a decade Michael Lind worked closely as a writer and editor with the intellectual leaders of American conservatism Slowly he came to believe that the many prominent intellectuals he worked with were not the leaders of the conservative movement but the followers and apologists for an increasingly divisive and reactionary political strategy orchestrated by the Republican party Lind s disillusionment led to a very public break with his former colleagues on the right as he attacked the Reverend Pat Robertson for using anti Semitic sources in his writings In Up From Conservatism this former rising star of the right reveals what he believes to be the disturbing truth about the hidden economic agenda of the conservative elite The Republican capture of the U S Congress in 1994 did not represent the conversion of the American public to conservative ideology Rather it marked the success of the thirty year old southern strategy begun by Barry Goldwater and Richard Nixon From the Civil War to the civil rights revolution the southern elite combined a low wage low tax strategy for economic development with a politics of demagoguery based on race baiting and Bible thumping Now Lind maintains the economic elite that controls the Republican party is following a similar strategy on a national scale using their power to shift the tax burden from the rich to the middle class while redistributing wealth upward To divert attention from their favoritism toward the rich conservatives play up the culture war channeling popular anger about falling real wages and living standards away from Wall Street and focusing it instead on the black poor and nonwhite immigrants The United States Lind concludes could use a genuine one nation conservatism that seeks to promote the interests of the middle class and the poor as well as the rich But today s elitist conservatism poses a clear and present danger to the American middle class and the American republic

Boiling Point Kevin Phillips,1993 From the author of The Politics of Rich and Poor a new book that documents the economic frustration of

the American middle class and analyzes the looming political consequences Phillips pinpoints the economic mismanagement special interest pandering and divide and conquer politics that have impoverished the American middle class and he shows how the 1992 election will be affected **War on the Middle Class** Lou Dobbs,2006
