Judas and the Twins Henry Berg,2025-02-12 To question if Jesus really was born in Bethlehem is actually quite common because it is suspected that the early church wanted him to be born in the same town as the legendary King David On the other hand it is quite unusual to doubt that Jesus died in Jerusalem so putting his death to Rome on the Capitoline Hill named after the skull of Tulus is almost pathetic but if art can be defined as something that makes something pathetic less pathetic then maybe that s exactly what this book does It s not to be overlooked that this is a book for people who like to take on a challenge and in that sense this is also a crime novel

spending and the proliferation of the latest military technology across Asia suggest that the region is set for a prolonged period of strategic contestation. None of the three competing visions for the future of Asian order – a US led Free and Open Indo Pacific, a Chinese centred order or the ASEAN inspired Indo Pacific Outlook – is likely to prevail in the short to medium term. In the absence of a new framework the risk of open conflict is heightened and along with it the need for effective mechanisms to maintain peace and stability. As Asia's leaders seek to rebuild their economies and societies in the wake of COVID 19 they would do well to reflect upon the lessons offered by the pandemic and their applicability in the strategic realm. The societies that have navigated the crisis most effectively have been able to do so by putting in place stringent protective measures. Crisis management and avoidance mechanisms and even in the longer term wider arms control can be seen as the strategic equivalent of such measures and as such they should be pursued with urgency in Asia to reduce the risks of an even greater calamity.

THE ART OF STRATEGY Erik Schön, Sun Tzu, John Boyd, Simon Wardley, 2020-04-18

What is strategy? Why do you need it? How do you do it? And how can you be more certain to succeed? *THE ART OF STRATEGY* provides timeless answers to these eternal questions. It is a short introduction to strategy through the insights of three successful strategists: Sun Tzu, John Boyd and Simon Wardley. It is a modern reading of Sun Tzu's *The Art of War*, the strategy classic written in China around 500 BC, using the lenses of Boyd's OODA loop inventor and Wardley's Wardley Map inventor, who were both influenced by Sun Tzu. Each chapter gently transforms *The Art of War* into a modern business setting and includes material from Boyd and Wardley in separate sections to complement and clarify Sun Tzu's terse poetic text. The idea is to serve strategy in 13 short chapters requiring 5-10 minutes of reading time each. An extensive glossary is included since many Chinese concepts are purposefully abstract and ambiguous. You will discover new thinking patterns – e.g. OODA loops and situational awareness – as well as visualization tools like Wardley Maps that will help you and your organization succeed together with your stakeholders. You will also improve your understanding of the sometimes evil political gameplays and counter measures used by Nancy Pelosi, Boris Johnson, Donald Trump, Vladimir Putin and Xi Jinping who are all inspired by Sun Tzu in some cases indirectly via Boyd. A great little book with loads of maps in there. Simon Wardley, inventor of Wardley Mapping. An excellent fusion of Sun Tzu, Boyd and Wardley that is beautifully laid out, highly readable and very straightforward in compressing the learning curve on all three. Mark J McGrath, chief learning officer. Erik Schön has created a great example of Boyd's snowmobile – a synthesis across a variety of domains leading to new insights and capabilities. I'm sure every strategist, business leader and entrepreneur will find valuable ideas for making their own enterprises more competitive. Chet Richards, author of *Certain to Win: The Strategy of John Boyd Applied to Business*. *The Art of Strategy* is condensed knowledge that all managers, agile coaches and other leaders should have. These are three thinkers from very different contexts. But as Erik has put it with similarities and differences topic by topic, a fourth voice appears. That voice belongs to the interaction between the three narrators and it gives as much value to me as a reader as the other three voices.
