Biressi, H. Nunn, 2013-04-23 How does culture articulate frame organise and produce stories about social class and class difference What do these stories tell us about contemporary models of success failure struggle and aspiration How have class based labels been revived or newly minted to categorise the insiders and outsiders of the new age of austerity Drawing on examples from the 1980s to the present day this book investigates the changing landscape of class and reveals how it has become populated by a host of classed figures including Essex Man and Essex Girl the squeezed middle the sharp elbowed middle class the feral underclass the white working class the undeserving poor selfish baby boomers and others Overall the book argues that social class although complicated and highly contested remains a valid and fruitful route into understanding how contemporary British culture articulates social distinction and social difference and the significant costs and investments at stake for all involved Understanding Contemporary Society Gary Browning, Abigail Halcli, Frank Webster, 2000-02-11 Understanding Contemporary Society Theories of the Present is a comprehensive textbook to guide students through the complexities of social theory today Over 30 chapters written by an international team of contributors demonstrate clearly the practical applications of social theory in making sense of the modern world Students are both introduced to the most significant theories and guided through the major social developments which shape our lives Key features of the book are clearly structured and readable prose bullet pointed summaries and annotated further reading for each topic makes complex issues accessible to undergraduates focuses on relevance and practicality chapter layout which is ideal for t **Queering Femininity** Hannah McCann, 2017-12-04 Queering Femininity focuses on femininity as a style of gender presentation and asks how and whether it can be refigured as a creative and queer style of the body Drawing on a range of feminist texts and interviews with self identifying queer femmes from the LGBTQ community Hannah McCann argues that the tendency to evaluate femininity as only either oppressive or empowering limits our understanding of its possibilities She considers the

dynamic aspects of feminine embodiment that cannot simply be understood in terms of gender normativity and negotiates a path between understanding both the attachments people hold to particular gender identities and styles and recognising the punitive realities of dominant gender norms and expectations Topics covered range from second wave feminist critiques of beauty culture to the importance of hair in queer femme presentation This book offers students and researchers of Gender Queer and Sexuality Studies a fresh new take on the often troubled relationship between feminism and femininity a critical but generous reading that highlights the potential for an affirmative orientation that is not confined by the demands of identity politics

Class Ulrika Holgersson, 2016-08-31 There is hardly any discussion of class that does not in some way relate to the theories of Marx and Weber So profound was the impact of their ideas that their writings are often perceived as the only original and most reliable interpretations of class society But Marx and Weber were neither the first nor last to talk about class and they did so based on the specific conditions prevalent in their own communities Class explains this complex field using cultural sociological and feminist perspectives It deepens our understanding of the problems of class and uses illuminating examples from media popular culture and literature that explain current class analysis Class is an elegant lucid comprehensive introduction that broadens our understanding of the concept and the immense power that it exerts by way of in and exclusions
