General Psychology, The Psychology of Scientific Inquiry Aaro Toomela, 2019-11-05 This brief sets out on a course to distinguish three main kinds of thought that underlie scientific thinking Current science has not agreed on an understanding of what exactly the aim of science actually is how to

understand scientific knowledge and how such knowledge can be achieved Furthermore no science today also explicitly admits the fact that knowledge can be constructed in different ways and therefore every scientist should be able to recognize the form of thought that under girds their understanding of scientific theory In response to this this texts seeks to answer the questions What is science What is scientific explanation What is causality and why it matters Science is a way to find new knowledge The way we think about the world constrains the aspects of it we can understand Scientists the author suggests should engage in a metacognitive perspective on scientific theory that reflects not only what exists in the world but also the way the scientist thinks about the world

Varlam Shalamov's Kolyma Tales Nathaniel Golden, 2021-11-01 This book analyses eleven of Varlam Shalamov's Kolyma Tales from a neo Formalist perspective The tales are a testament to Shalamov's seventeen years in Stalin's Gulags and were written in an attempt to draw attention to this period in Soviet history Nathaniel Golden has primarily utilised L M O Toole's work Structure Style and Interpretation in the Russian Short Story as the major basis for analysis but has incorporated many other Formalist and indeed Structuralist methods The tales in each chapter are analysed by means of five major Formalist categories Narrative Structure Point of View Fabula and Sujet Characterisation and Setting This process highlights many of Shalamov's ideas and motifs in the tales He frequently uses techniques of estrangement and paradox to augment camp experience reflecting his belief that there is no moral emotional or spiritual gain in suffering He habitually employs a focaliser to tell the tale from a near death perspective and in consequence distances the author from events His literary background is prominent within the tales where he occasionally alludes to earlier Russian authors and their works to indicate the recurring nature of Man's fallibility against the Gulag background His characters are often simply portrayed yet representative of flawed heroes and the baseness of human beings subjected to an existence in extremis His settings are minimal yet form a major part of his message Man is compared to nature but nature is powerful and able to regenerate itself whereas Man's existence is temporary and futile This book therefore shows that the Formalist approach is indeed still valid as a literary tool of analysis as well as showing that upon the 50th year of Stalin's death Varlam Shalamov's time has arrived
