Fidic Plant And Design Build Form Of Contract Illustrated:

FIDIC Plant and Design-Build Form of Contract Illustrated Raveed Khanlari, Mahdi Saadat Fard, 2015-10-26 The Conditions of Contract prepared by FIDIC are used extensively as the standard contract of choice in international construction and civil engineering projects. Engineers working on these projects need to be aware of these contracts but as the forms are complex it can be difficult to draw together all the sub clauses relating to a particular issue. The FIDIC Plant and Design Build Forms of Contract Illustrated crystallizes the requirements of the FIDIC P DB contract into a range of simple to follow flow charts providing a clear and concise way to rapidly assimilate the requirements of each clause. The relationship between the various clauses in the contract, the concepts, process methods and actors involved in each sub clause are all easily seen and key issues around each topic such as periods allowed, notices etc are all documented. In addition related sub clauses and or important additional documents are linked so that the reader has a full understanding of the wider implications of each clause.
