Kaplan, William A. Owings, 2021-09-09 Now published by SAGE A modern and comprehensive introduction to the field Foundations of Education makes core topics in education accessible and personally meaningful to students pursuing a career within the education profession In a clear and direct prose authors Leslie S Kaplan and William A Owings offer readers the breadth of coverage scholarly depth and conceptual analysis of contemporary issues that will help them gain a realistic and insightful perspective of the field In addition to classic coverage of foundational topics such as educational philosophy history reform law and finance the newly revised Third Edition features a special emphasis on social justice issues considers key debates around today's education trends and underscores the theory and practice behind meeting the needs of all learners This title is accompanied by a complete teaching and learning package **Quality of sexual and reproductive health care: strengths, gaps, and challenges for midwifery care** Ramon Escuriet, Lorena Binfa, Loreto Pantoja, 2025-02-18 Poor quality of sexual and reproductive care SRC persists despite countries commitments to international conferences The challenges posed by the COVID 19 pandemic reversed trends in maternal and neonatal mortality and contraception rates increasing unmet family planning needs and gender based violence Evidence shows that midwifery care has made an essential contribution to the development of high quality services in maternal and childcare The introduction of midwifery professionals trained according to international standards and integrated into the health system can provide around 90% of primary health care for women and newborns including family planning These skilled professionals can save lives and improve the health and well being of women and newborn infants at a scale unmatched by other health interventions Evidence identified 56 outcomes improved by the full scope of midwifery The weight of sexual and reproductive health on general health and wellbeing has a greater impact on women particularly those that are neglected to receive high quality

SRC Providing high quality SRC demands more humanized and integrated efficient and effective services with a greater emphasis on quality both from a technical perspective and from the user experience Despite all the efforts the quality of SRC is still a challenge globally research is needed to identify best practices addressing quality care tailored to individuals implementation of models of care that enhance both well being and safety optimization of physiological processes during childbirth as well as validation of outcomes measures
