Teaching IFRS Richard M.S. Wilson, Ralph Adler, 2013-09-13. The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. *Teaching IFRS* offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective. Hence, this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of *Accounting Education: An international journal*.

Banking Law and Financial Regulations John Abolarin, 2025-01-03. Evaluating the financial accounts of the Royal Bank of Scotland Group, Barclays, HSBC, and Standard Chartered Bank from 2004-2018 reveals a taste of the sweetness of success. It also demonstrates what could go wrong in a mega bank: the crippling price of failure and the long, hard road to recovery. This book

is a historical account of the causes of instability in the banking sector in the past 40 years and an evaluation of the effectiveness or otherwise of a range of laws and regulatory measures adopted to remedy financial crises in the UK over the years In addition the book provides a broad review of the evolutionary development of banking and financial laws starting with seminal case laws on the subject the Banking Act 1979 the repealed Banking Act 1987 FSMA 2000 the Company Act 2006 the Banking Reform Act 2013 Basel Accords and sundry EU Directives John a Barrister at Law offered a robust blend of theoretical knowledge and twenty years of practical industry experience in a commercial bank to provide legal perspectives on supervisory models necessary for stability in the banking sector while promoting justification for creating an enabling environment for wealth creation and economic growth The Methods and Methodology chapter would be an invaluable companion for postgraduate students and researchers
