

Chapter 1

A Framework for Financial Accounting

REVIEW QUESTIONS

Question 1-1 (LO 1-1)

Accounting is the language of business. Whereas a basic math class might involve adding, subtracting, and solving for unknown variables, accounting involves learning to measure business transactions and communicating those measurements in a format that is generally understood by decision makers.

Question 1-2 (LO 1-1)

Those interested in making decisions about a company include investors, creditors, customers, suppliers, managers, employees, competitors, regulators, tax authorities, and local communities.

Question 1-3 (LO 1-1)

Financial accounting seeks to measure business activities of a company and to communicate those measurements to *external* parties for decision-making purposes. The two primary external, or outside the firm, users of financial accounting information are investors and creditors. Managerial accounting deals with the methods accountants use to provide information to an organization's *internal* users, that is, its own managers.

Question 1-4 (LO 1-1)

The two primary functions of financial accounting are to measure business activities of a company and to communicate information about those activities to investors and creditors for decision-making purposes.

Question 1-5 (LO 1-2)

The three basic business activities are financing, investing, and operating activities. Financing activities are transactions that raise cash needed to operate the business. Investing activities typically include the purchase or disposal of long-term resources such as land, buildings, equipment, and machinery. Operating activities include the primary operations of the company, providing products and services to customers and the associated costs of doing so, like utilities, taxes, advertising, wages, rent, and maintenance.

Question 1-6 (LO 1-2)

Typical financing activities would include selling stock and paying dividends to investors, as well as borrowing and repaying debt to creditors.

Question 1-7 (LO 1-2)

Typical investing activities would include the purchase or disposal of land, casino buildings, hotels, gaming tables, chairs, cleaning equipment, and food preparation machines.

Strategic Intuition William Duggan, 2013-06-18 How Aha really happens When do you get your best ideas You probably answer At night or In the shower or Stuck in traffic You get a flash of insight Things come together in your mind You connect the dots You say to yourself Aha I see what to do Brain science now reveals how these flashes of insight happen It s a special form of intuition We call it strategic intuition because it gives you an idea for action a strategy Brain science tells us there are three kinds of intuition ordinary expert and strategic Ordinary intuition is just a feeling a gut instinct Expert intuition is snap judgments when you instantly recognize something familiar the way a tennis pro knows where the ball will go from the arc and speed of the opponent s racket Malcolm Gladwell wrote about this kind of intuition in Blink The third kind strategic intuition is not a vague feeling like ordinary intuition Strategic intuition is a clear thought And it s not fast like expert intuition It s slow That flash of insight you had last night might solve a problem that s been on your mind for a month And it doesn t happen in familiar situations like a tennis match Strategic intuition works in new situations That s when you need it most Everyone knows you need creative thinking or entrepreneurial thinking or innovative thinking or strategic thinking to succeed in the modern world All these kinds of thinking happen through flashes of insight strategic intuition And now that we know how it works you can learn to do it better That s what this book is about Over the past ten years William Duggan has conducted pioneering research on strategic intuition and for the past three years has taught a popular course at Columbia Business School on the subject He now gives us this eye opening book that shows how strategic intuition lies at the heart of great achievements throughout human history the scientific and computer revolutions women s suffrage the civil rights

movement modern art microfinance in poor countries and more Considering the achievements of people and organizations from Bill Gates to Google Copernicus to Martin Luther King Picasso to Patton you ll never think the same way about strategy again Three kinds of strategic ideas apply to human achievement Strategic analysis where you study the situation you face Strategic intuition where you get a creative idea for what to do Strategic planning where you work out the details of how to do it There is no shortage of books about strategic analysis and strategic planning This new book by William Duggan is the first full treatment of strategic intuition It s the missing piece of the strategy puzzle that makes essential reading for anyone interested in achieving more in any field of human endeavor
