Corporate Governance, Capital Markets, and Capital Budgeting Baliira Kalyebara, Sardar M. N. Islam, 2013-07-31 The primary contribution of this book is to integrate the important disciplines which simultaneously impact the investment appraisal process The book presents a study that develops a new approach to

investment appraisal which uses a multiple objective linear programming MOLP model to integrate the selected disciplines which include capital markets corporate governance and capital budgeting The research covers two case studies one in the e commerce sector and another in the airline industry in which the above disciplines are integrated Readers from the areas of corporate governance regulation and accounting would find the survey of different approaches and the new integrated optimization approach particularly useful *World Financial Orders* Paul Langley,2003-08-27 *World Financial Orders* challenges the predominance of neo liberalism as a mode of knowledge about contemporary world finance and claims that it neglects the social and political bases as well as the malign consequences of change He looks to the field of International Political Economy IPE to construct an alternative mode one that critically restores society and politics An historical approach to IPE is advanced that accounts for modern world finance since the seventeenth century as a succession of structurally distinct hierarchical social orders This book will be of interest to those working in the field of IPE and to those scholars researchers and students from across the social sciences who seek to challenge the common sense neo liberal explanation of contemporary world finance **The Oxford Handbook of Banking** ,2025-03-13 The Oxford Handbook of Banking 4th edition provides an overview and analysis of developments and research in banking written by leading researchers in the field This handbook will appeal to graduate students of economics banking and finance academics practitioners regulators and policy makers Consequently the handbook strikes a balance between abstract theory empirical analysis and practitioner and policy related material This handbook is a one stop source of relevant research in banking It examines the fundamentals of banking traditional and new challenges to the banking model models for banking services delivery regulatory and policy perspectives and global regional and country perspectives on banking This fourth edition comprises new chapters and material including banks and financial markets in a digital age FinTech and BigTechs financial literacy financial inclusion sustainable banking stress testing and macroprudential regulation Long-Term Commitment, Trust and the Rise of Foreign Banking in China Qing Lu,2007-09-30 The rapid growth of foreign banks has aroused a growing interest in the academic field and specifically as regards to the question of why foreign banks exist This book aims to establish the relationship between trust as contextual knowledge capital built between the Chinese government and foreign banks and foreign banks knowledge capital and the relationship between the former and foreign banks long term commitment By investigating the development strategy of foreign banks and by examining and explaining the importance of foreign banks long term commitment to their development this book has demonstrated that foreign banks established branches in China not only to follow their home country customers in order to retain their knowledge capital but also to gain market access Trust as contextual knowledge capital built between foreign banks and the Chinese government could assist their knowledge capital retention and their market access strategy Foreign banks long term commitment could help them to achieve this contextual knowledge capital This book thus has major implications for the development strategy of foreign banks in a

government oriented economy with a controlled banking sector The first book covering the relationship between the governments trust and support and the rise of foreign banks in China Few studies have analysed the development of foreign banks from the standpoint of government i e the supply side of the banking licence and the relationship between the development of foreign banks and the trust built between foreign banks and the government The first book showing how some big foreign banks in China such as HSBC built relationship with the Chinese government
